All acknowledge goes out to God who has refined me into the person I am today. He has been the inspiration I have used to complete this record of our historical time. You have been the foundation I have used to stabilize the ideas and vision of these documents. I would like to thank my family, and friends for the encouragement and influence they have had on my life. The lord I pray continues to be your favor. My hope is that every reader of this book would come to know the truth that Jesus is God. That even today Jesus is still relevant because he is actually the truth. His life, death, and resurrection changed the tides of time forever. No historical person can compare, and once you have seen it you cannot unseen it.

Preface

In the 21st Century many of the problems men face from loneliness to depression can be alleviated by an awareness of identity. More than ever there has been a rapid increase of the amount of adult pampers being created and a decrease in children's pampers. There is a significant fall off in the amount of children that are being born in the west. What is the correlation between the alteration of these numbers and the concept of self-identifying by the LGBTQ? This book is the answer to the question that every man asks after becoming an adult. Who Am I?

There are two categories that every man can be measured by. The two identities are observed most radiantly in the business realm. It also governs the very nature of the meaning of fulfilling purpose. Some use this knowledge to their advantage, creating an abundance of wealth beyond that which is imaginable. Others live completely asleep to the power lying dormant in them. You have the power to define, and overcome any obstacle before you. The common man is lost as to his identity making him vulnerable to manipulation and coercion.

We will discuss how a man can free himself from mental slavery and how businesses are directly connected to the purpose of a man. This will be approached by granting the documentation of multiple experiences that the author has been through and to tell a story of a man's journey to freedom. In the beginning mankind gave birth to unspeakable evil beyond that which can be quantified. As a result we are left with two worlds. The walking state and the spirit dimension. These two dimensions have been severed and now we are caught in a rift. Rituals are causing this rift to become larger. I believe that there will be a time in the coming future where this rift will completely collapse.

Introduction

This is a record of the author's encounters with the supernatural. There are some phenomena which breaches the laws of this realm. Otherworldly encounters that beg the question are their other beings in the universe? This journal will answer the proposed question and give real world experiences of the author's intensive encounters with Angels and Demons.

These are the end times of signs and wonders in the skies. This is the time period when the supernatural realm interacts with the natural, right before your eyes. More so than ever in history there have been an unprecedented number of sightings of paranormal activity surfacing on camera. From beings of light bursting out of volcanoes, humanoid figures appear in the sky, light beings appearing as stars moving in anti-gravitational patterns, before vanishing at light speeds.

This is the greatest defense of the legitimacy of the crucifixion, resurrection, and ascension of Jesus. Here is one man's recollection of Angelic and demonic encounters. The investigation is philosophical, scientifically, archaeological, theological and objective. The author's claim is that science compliments religion as many scientific discoveries have proven biblical text to be accurate.

Let the Truth be acknowledged

As a defender of the authenticity of Jesus asks that facts be separated from fiction, what has been proven is admitted as proved and left to an honorable grave. "The truth is ever young, however old,' Tis ever new as when first told; its fragrance fresh as the new mound. From which the first young flowers unfold." (Acta Pilati, 1879, p. 40) Many Lives of

Christ has been given to the world. This book attempts to answer the religious question of the age. Is Jesus God, and is the bible the correct source of his life? The author answers yes with irrefutable evidence presented behind his answer.

"In my view of the life, the teachings, the labors, and the sufferings of the blessed Jesus, there can be no admiration too profound, no love of which the human heart is capable, too war, no gratitude too earnest and deep of which he is justly objective. It is with sorrow that my love for him is so cold and my gratitude so inadequate. It is with sorrow that I see any attempt to put aside his teachings as delusion, to turn men's eyes from his example, to meet with doubt and denial the story of his life." (Thoughts on The Religious Life, 1879)

The factual parts of the Life and Death of Jesus are just as valid as any other historic evidence. This document will investigate the testimony of a heathen which coincides with the New Testament. The narrative of the Gospel is confirmed by the enemies of Jesus. Pontius Pilot described Jesus saying "His golden colored hair and beard gave to his appearance a celestial aspect." Neither by his admission he said," Nor in the works of any philosophers anything that can compare to the maxims of Jesus." (Acta Pilati, 1879, pp. 49-50)

"Render unto Caesar the things which belong to Caesar the things which belong to Caesar and unto God the things that are God's." (Amplified Bible, 1965, p. Matthew 22:21)Pontius granted Jesus so much freedom because of this, stating it was within his power to have Jesus arrested and exiled. The underlining idea here was that Jesus appeared upright even from Roman standards.

The merit of this report alone a direct quote of Pilot's from the New Testament alone is revealing of the history of Jesus. On an account of this event it is difficult to disprove a document which predates accusers. In our case these documents are 2000 years Old. But yet the Bible provides a defense against every other religion and will outlast the ages. It is as if the words themselves defy the very fabric of time. My attempt is to pass on the truth to the future generations that they may know that the God of the bible alone is God.

Did Jesus Claim to be God

Recently there have been claims from accusers of the faith render that between the ages of 12 to 30 Jesus traveled to India where he would learn to become a sage. Let us investigate the validity of the claim made by the Indians. There is indeed a confirmed gap between ages 12 to 30 years in which nothing biblically was mentioned about Jesus's life.

In this time period Jesus had developed himself to be the greatest man of all time. He was teaching about the parable of the Sower and Soils, Parable of the Seed, and Parable of the Mustard Seed. He then proceeded to speak and the Storm calmed. Then Jesus delivered a man of multiple Demons in Gerasenes. After healing a woman who had hemorrhage for twenty years Jesus left there and came to his hometown. (Amplified Bible, 1965, pp. Mark4-6)

He began teaching in the synagogue and those who were listening said "Where did this man get these things knowledge and spiritual insight? What is this wisdom what has been given to him, and such miracles as these performed by His hands? Is this not the carpenter, the son of Mary, and the brother of James and Joses and Judas and Simon? (Amplified Bible, 1965, pp. Mark 6:1-3)

The findings show that the year's people question Jesus was working as a Carpenter in his hometown. While there is no convincing evidence that Jesus traveled to India. Jesus was counted as a criminal for claiming to be the Son of God. The doctrine of Jesus was so elementary that Pilate's wife was professed to see into the future, saw that he was God.

Her Vision of Jesus as God

Crying her eyes out she said to him, "Beware and touch not that man, for he is holy. Last night I saw him in a vision. He was walking on the waters. He was flying on the wings of the winds. He spoke to the tempest, and to the fishes of the lake- all were obedient to him. Behold the torrent in Mount Kedron flows with blood, the statues of Caesar are filled with Gemoniae, the columns of the Interium have given away, and the sun is veiled in mourning, like a vestal in the tomb. O Pilate! Evil awaits thee if thou wilt not listen to the vow of thy wife. Dread the curse of a Roman Senate, dread the powers of Caesar." (Acta Pilati, 1879, pp. 62-63)

When the multitude had come before Pilate and Jesus was brought to him they went to the hall of justice and he asked the people what they demanded. This was their reactions, "The death of the Nazarene," "For what crime?" "He has blasphemed. He calls himself the Son of God, the Messiah, and the King of the Jews." "Roman justice punishes not such offenses with death." "Crucify him, crucify him!" (Acta Pilati, 1879, p. 63)

Supernatural Signs

The mob he described to be demonically influenced and to his vision did not even seem to be walking. He washed his hand signifying his disapproval of the decision. In his words "They were whirled as a vortex, rolling along like waves, from the portals of the Pretorium

even unto Mount Zion, with howling's, screams, shrieks, and vociferations, such as never heard in the seditions of the Panonia. The day darkened like it was winter's twilight, such as had been at the death of the great Julius Caesar." (Acta Pilati, 1879, p. 65)

The wind sang a song of agony which had never been heard to mortal ears. Clouds Darkened over the temple, covering the entire city. The signs were so terrible on heaven and on earth that Dionysius, the Areopahite said "Either the author of nature is suffering, of the universe is falling apart." (Acta Pilati, 1879, p. 67) He then reports speaking with Joseph of Arimathea who asked him for permission to bury Jesus. He granted Joseph's request then orders Manlius to take some soldiers with him so no one could break into the tomb. (Acta Pilati, 1879, p. 68)

After a few days the tomb was found empty and his disciples published everywhere that he was raised from the dead. This is a letter Pilate wrote to Tiberius Caesar on the night it was reported that Jesus was still alive. It reveals that not only did Jesus claim to be God on an account of him saying; "The father and I are one" (Amplified Bible, 1965, p. John 10:30) Pontius Pilate bore witness to their claims of his crime. They said he claimed to be the Son of God.

Son of God

The Lineage of Son of God is only mentioned a few times in the Tanakh and New Testament. When we investigate The Corruption of Mankin in the Tanakh, the sons of God created children with Daughters of Men. God then shortens the life span of human kind to 120 years. The children created as a result of the joining of these two lineages were mighty men of renown, the mighty men of old. (Amplified Bible, 1965, pp. Genesis 6:2-4)

Adam and Jesus were referred to and called Son of God in the Genealogy of Jesus. A significant factor many miss as genealogies can get a bit difficult to decipher. (Amplified Bible, 1965, pp. Luke 3:23-38) The Christian faith is very distinct from any other religion in the sense that the union between Jesus, our father and his holy spirit is a mystery. “If you can understand all the intricacies of who God is within both his being and his character, it’s probably a God that you made up.” (The Trinity Explained by Wess Huff, 2025)

The earliest depiction of this dynamic can be observed when Abraham meets God. The account mentioned that three men appeared to him. They ate, as God gave a prophecy to Sarah that in one year she would bear a Son. Then God discusses his with Abraham the judgement that Sodom and Gomarrah was about to endure. (Amplified Bible, 1965, p. Genesis 18)

Beginning that judgement after the angel had warned lot and his family to leave the city. “Then the Lord rained down brimstone and fire on Sodom and on Gomorrah from the Lord out of heaven. (Amplified Bible, 1965, p. Genesis 19:24)The Lord while one in being is three persons. Being describes what you are, while personhood describes who you are. The word God is translated in the Hebrew as Judge. This title is not identical with the name of God. The father, son, and Holy Spirit are communicated have the honors, attributes, names, deeds and the seat of the almighty. How Jesus could be executed for blasphemy if he did not claim to be God. (The Incarnate Christ and His Critics:A Biblical Defense, 2024)

After Jesus had resurrected and met his disciples in Galilee, some worshiped him as God and others doubted. Jesus addressed them saying, “All authority in heaven and on earth has been given to me. Go therefore and make disciples of all nations baptizing them in the

name of the Father and of the Son and of the Holy Spirit, teaching them to observe everything that I have commanded you, and lo, I am with you always, even to the end of the ages." (Amplified Bible, 1965, pp. Matthew 28:16-20)

In conclusion Jesus not only claimed to be God when he said him and the father was one, he showed them. He took Peter, James, and John up to a high mountain alone. Then he transfigured as his face shined like the sun, and his clothes became as white as light. Moses and Elijah appeared and began talking to Jesus. Then the men became terrified as a bright cloud appeared and a voice said to them, this is my son who I love, please listen to him. Jesus then came to them and said get up and do not be afraid. When they looked up Jesus alone was there and he told them to tell no one what they saw until his after he was raised from the dead. (Amplified Bible, 1965, pp. Matthew 17:1-9)

Scholars like Wess Huff are reporting the moment when Jesus spoke to Moses and Elijah was the same moment when God Met with Moses and Elijah on Mount Sinai. He did not go back in time but God simply does not exist in time to begin with. The parallels between Jesus, Moses, and Elijah are very interesting. As my friend Mahana was pointing out to me, they all fasted for 40 days and 40 nights. So Jesus did not just come to fulfill the law, he was the law itself. Apostle Ryan D. was pointing out to me that in the Beginning was the Word and the word was God. The Holy Spirit showed me that he himself is the beginning itself. The beginning is not something but the beginning itself is God. That is why he has no beginning or end. Jesus is God and the evidence is overwhelming. This is the tale of our master.

Inception

The Tale Begins

This is a tale of one man's modern-day account of his encounter with The Divine Creator. In the beginning was the word. This story is based on true events. A series of refined real-life narratives, dreams, and visions documented and manifested upon. My hope is that all will come to accept that Jesus came to earth to die that we all may live. He was buried, and rose after three days, and over 500 different individuals bore witness to his resurrected body. Many would be put to death for telling other people the account of his life. "Truth is ever young, however old, Tis ever new as when first told; its fragrance fresh as the new mound from which the first young flower unfold." You see Jesus was placed on trial for the crime of claiming to be God. (Acta Pilati, 1879, pp. 33-41)The issue was that before his accusers came against him his resume of creating miracles made his claim to be God

feasible. Before resurrecting himself, he had already revived Lazarus eternal rest. I both of these instances he spoke and it was. (Amplified Bible, 1965, p. John 20:29)

After having many encounters with Jesus I call him El Millim. El Millim is a Hebrew name which speaks on the revelation of God's word. "In the beginning was the Word, and the Word was with God, and the Word was God. He was with God in the beginning. All things came to be through him, and without him nothing made had being. In him was life, and life was the light of mankind. The light shines in the darkness, and the darkness has not suppressed it." (Amplified Bible, 1965, pp. John 1-5)I present the evident that Jesus is indeed the word of God. This book takes you on a journey of that revelation. This is a story of how God revealed himself to me just like he did to Moses, Abraham, and Yoseph.

When Pharaoh proclaimed himself to be God he was worshiped as such. Ceaser conquered the world proclaiming him God and creating an empire that has ruled for 1500 Years. (Augustus, 2009). The pope calls himself the representative of God and as a result he is worshiped as such. Budda claimed to be God. He is also worshiped by millions as God. However, the second Jesus claimed to be God he was killed by his own kinsmen. Scorned, spatted on, and tortured. Why was Jesus killed for claiming to be God? While others were accepted with open arms. Prepare as I take you on a journey to discover the truth.

Life after death

The longer I live the more I find it futile to go against the will of the Lord. Jesus the best example of righteousness displayed the possibility of returning to life after death. There is an account of Lazarus's experience after he died. It is the account of the rich man. Many

who have death/ near death experiences are often looking upon as mentally unstable. So many how have had these experiences are reluctant to share their message. As a rambunctious youth my interests were always deeper than most. At age five while attending a conference I met a woman who was said to once be pronounced dead. My fascination with the supernatural began in this time-period. Looking back now, perhaps her experience was so relatable because before I met her, I had met death face to face a few times.

My First Encounter with the Occultism World

Alice

At age 8 I attended a conference where I heard the testimony of Emmanuel Amos ENI. He was the first individual who confirmed my suspicions about the supernatural realm. He told of his experiences in Lagos with Alice, a beautiful young woman he was betrothed to.

She promised him that she would give him the world. Emmanuel's entire immediate family died to witchcraft. So, a promise of money was beyond enticing to him. To everyone else she was a gorgeous bank accountant. However, the reality was much more sinister.

His suspicions began when one night he woke up next to a Boa constrictor. Other nights he would hear her rituals echoing through the walls of his room and felt like something was strange. One day after she left for work, he decided to search through her flat. In her apartment she had 4 refrigerators. What was his discovery upon opening one? "I saw human skulls, different parts of human body both fresh and dry. Inside the ceiling were skeletons" that day when she arrived home, she immediately confronted him about opening the fridge. (Delivered from the Powers of Darkness, 1987, p. 12)

She consoled him by telling him that he was more than just a human. He is also part spirit, inviting him to a meeting the next day. Alice was a part of something much larger than that he would later discover. Unknowing to him she contacted her cult elders in India to initiate him into their order.

Spiritualism

The following day she had initiated him into the occult/ spiritualism through indoctrination using books and took him to a meeting. A few days later he made a covenant with Alice. This was his account, “At 2.00 a.m. she brought a crawling child, a girl, alive. Before my eyes, Alice used her fingers and plucked out the child’s eyes. The cry of that child broke my heart. She then slaughtered the child into pieces and poured both the blood and the flesh into a tray and asked me to eat. I refused. She looked straight at me and what came out of her eyes cannot be explained in writing. Before I knew what was happening, I was not only chewing the meat but also licking the blood.” (Delivered from the Powers of Darkness, 1987, p. 16)

This ritual she told him would ensure that he was bound to her. If he had mentioned to anyone of her secrets, he would be killed immediately. This meant that there was no way out of the conundrum he had found himself in. The moral of this story was to be careful

who you take to be your spouse. However, losing his mother, father and various other relatives Alices promises to make him rich would have worked on any man in is situation.

This ritual changed him completely; he reported that he had lost control of himself after he completed his first covenant. His lust for more power grew expeditiously from that point on. He accepted the fate that awaited him. This covenant meant that he could no longer turn back nor ask anyone for help.

Dark Covenants

Covenants are initiation rituals done by occultists to keep new recruits quiet. Alice had unknowingly to Emmanuel send word of him to the occult society of India. The day of his

covenant with her, he received a letter from India to “Eat excreta, eat decaying smelling rats, and to have sexual intercourse with spirits in the cemetery at night.” After completing these rituals, he was instructed to never have sex with any human woman again. After he fulfilled these tasks, he replied by letter to India speaking of his inability to get to India.

One day after he returned to his home, he found a man in his house and became afraid. The man asked him if he was Emmanuel Amos. “I am”, he answered. The man replied, “I have been sent to bring you to India, so get ready.” Emmanuel quickly locked his doors and windows and sat next to the man. The stranger placed his hand on him and in an instant like lightening he disappears and reappeared in Delhi, India.

Upon arriving at a conference hall, he was given a contract to sign and given a tray of human flesh and blood. He partook just like his original covenant with Alice. This would signify his second covenant of silence. He was then subsequently tortured for 14 days by spiritual beings like demonic birds, reptiles, beasts, and humanoid creatures with no faces. (Delivered from the Powers of Darkness, 1987, p. 18)

“I was then sent to a very big library that contained large volumes of mystic books to study. I later picked two books: Abbysinia, which means destruction, and Assina, which means giving life or curing.” Then his masters instructed him to build a chamber. This room was to have “A native water pot filled with human blood, a living tree inside, a human skull, vulture feathers, wild animal skins, boa skin and a big shiny laterite beside the pot.” The blood inside the water pot is to be taken every morning with an incantation. His final instruction was to never eat food cooked by any humans. Instead, he would be fed spiritually from this point on. (Delivered from the Powers of Darkness, 1987, pp. 18-19)

This would mark the second covenant he endured. The ordeal made him even thirstier for power. He had no control over his actions. Every day he would drink human blood and eat human flesh like a vampire. Sounds like something straight out of a Blade trilogy movie, vampires that can walk in the sun. He became inhuman operating in the spirit while being in physical form. (Blade: Trinity, Dec 8, 2004)

Queen of the Coast

After returning to Nigeria, three days in a row Emmanuel saw the same gorgeous woman in the same location. On the third day she called out to him. He introduced himself, asking her what her name was and where did she live. She merely giggled, asking him where he lived. He only told her the street. She remarked that one day she would visit him before they parted ways. As she promised, one day she knocked on his door. Knowing he had only given her the name of the street where he lived, he entertained her anyways. She left shortly after; however, at a specific time she would regularly visit him. Although they were not intimate, he would bring her to Lagos Barbeach, Paramount Hotel, and Ambassador Hotel and other places he liked. He had done these things without knowing her name. (Delivered from the Powers of Darkness, 1987, pp. 20-22)

From that point she began visiting Emmanuel at night. Before long she suggested that it was time for him to visit her home. That night they stayed together. In the morning, they began their journey to her home. She took him to the corner of Barbeach and strapped them together with what seems to be a belt. Immediately after a force came from behind and pushed them into the sea. As they sank to the seabed they walked along a wide road. The roadway led them to a city filled with people. These things he witnessed whilst he was still in his physical form.

The Spirit Realm

"I saw laboratories, like science labs, designing labs, and a theatre. At the back of the city, I saw young beautiful girls and handsome young men. No old people. She introduced me to them, and I was welcomed." She took him to a mansion and said to him "I am the QUEEN OF THE COAST and would like very much to work with you. I promise to give you wealth and all that go with it, protection and all that go with it, life and an 'angel' to guide you." (Delivered from the Powers of Darkness, 1987, p. 21)

She presented human flesh to him, and they ate it together. Then she summoned a boa constrictor asking him to swallow it. There was no way he could swallow an entire boa. So she used her powers allowing him to successfully swallow the serpent. Covenant #3

The human blood and boa were there to make sure he died if he revealed any secrets. The angel was given power to discipline him if he was disobedient. However, if he was agreeable, it would bring food from the sea once he was on earth. After pledging his allegiance to her she took him to an island. The trees of this island had different functions. Some functions were to poison, one that could summon spirits, another used to kill, and an additional tree for healing. (Delivered from the Powers of Darkness, 1987, p. 22)

She gave him the power to shape shift into any sea animal. He could become a Crocodile, Boa constrictor, or Hippopotamus before vanishing. He spent a week in the sea before returning to earth. He shapeshifted into a Crocodile then swim to the surface. Subsequently, returning to earth for a week before going back to the underworld. (Delivered from the Powers of Darkness, 1987, p. 23)

Emmanuel Met Satan

The first assignment given to me by the queen was to kill two elders who had a hand in having his parents killed. He reluctantly carried out his mission, sending the blood of his victims back to the queen. As a result of the elder's untimely deaths other elders contacted another witch doctor to have him killed. The doctor usually acted by sending lightning. The lightening they sent returned amidst the elders killing some and wounding others. (Delivered from the Powers of Darkness, 1987, pp. 25-26)

After returning to the sea, I was told of our meeting with Lucifer. In this meeting Satan's instructions were to kill the believers and not the unbelievers for unbelievers were already his. A member of counsel asked him why? Satan replied by saying God kicked him out of that place because of pride so he does not want any Christian to make it into there

(Heaven). “We should only fight the real Christians. That his time was near, therefore we should fight as never before and make sure no one enters that place.” One of the members mentioned that he heard that God had sent someone to rescue mankind back to God. Satan replied, who is that? The man replied saying Jesus. Surprisingly Lucifer fell from his seat urging the man to never say that name again if he valued his life.

New age ideology insists ironically that the name Jesus is somehow not valid as it is the English translation of Yeshua. I would argue however, that this is simply an attempt to discredit the name Jesus. The world is becoming less and less tolerant of trusting Christians. Like Satan mentioned above the non-Christian is an ally of Satan. Many people around us are planted to cause confusion and division.

Emmanuel was the first person I met who insinuated that witchcraft was correlated with science. Today science is the new religion as we have technological projects aimed at saving humanity from any sickness and granting them eternal life. In other words, we would no longer need Jesus to perform miracles like healing the sick, raising the dead, casting out demons etc. This religion claims that we can all be our own Jesus and connect to God without him. It’s interesting that Jesus addressed this before dying. Stating that, “no one can come to the father except through me.” I learned relatively early that there is power in the name.

The Symbolic World of Science

As a young child I had always been fascinated with the world of computers. At age 3 I would play games like Slordax, Mortal Kombat, and Mavis. I would sneak into my brother's room after school to play StarCraft. At the time terminologies like World Wide Web, User, gateway, and windows were all innocent. Today I noticed that each of these terms held important symbolic value.

The term user has an alternate meaning. A user is also someone who is addicted to a substance. An additional point of view is that a user is a person who only consumes, and never produces. The web, while having the symbolic value of connection, also signifies a trap. Gateway refers to the opening of portals or dimensions. Lastly windows, which is known as the operating system that every device uses always has strange relations to opening of spiritual doorways (Dimensions).

The Word

The word is the most interesting weapon humans possess. Observe the words you speak and be intentional to relay a will of goodness. "We awake each morning, and go off during

the week days to earn the living at various jobs and undertaking, until we come to the weekend." (Secret Spells of the English Language, 2010) More people die between the hours of 6 and 9 than any other time in the week.

A wake is a gathering held in the evening before a funeral. Mourning is the expression of sorrow for someone's death. Weak is an adjective representing lacking strength, an urn is a closed vessel used to preserve ashes of the dead after cremation. An undertaker is a person whose business is preparing dead bodies for burial or cremation and making funeral arrangements. In Hebrew job means to be hated. Words are power and we need to use them wisely.

A God Who speaks

Prophecy

In 2009 I received a prophecy that would stick with me for a lifetime. The prophetess told me that the spirit of Joseph rested upon me. After speaking this to me softly she began praying for me. She wore a scarf with a bright red robe. As she stretched her hands out to me, making no physical contact with my skin, I felt a force hit me. I fell to the ground but there was no pain. I immediately knew that God was truly in this place.

It was not until 2013, attending College with nothing but a mind of faith that I notice this prophecy was in fact true. I seemed to have some form of favor in situations where others failed. Before making my final decision, it was summertime, and my family constructed a beach outing for the young children. On the shore we noticed a yacht with two jet skis floating on the water's surface. God operates through prophecy. Jesus came to fulfill many prophecies foretold by prophets of old. Prophecy is one of the most important ways in which he chooses to operate through.

An Enemy Who Masters Deception

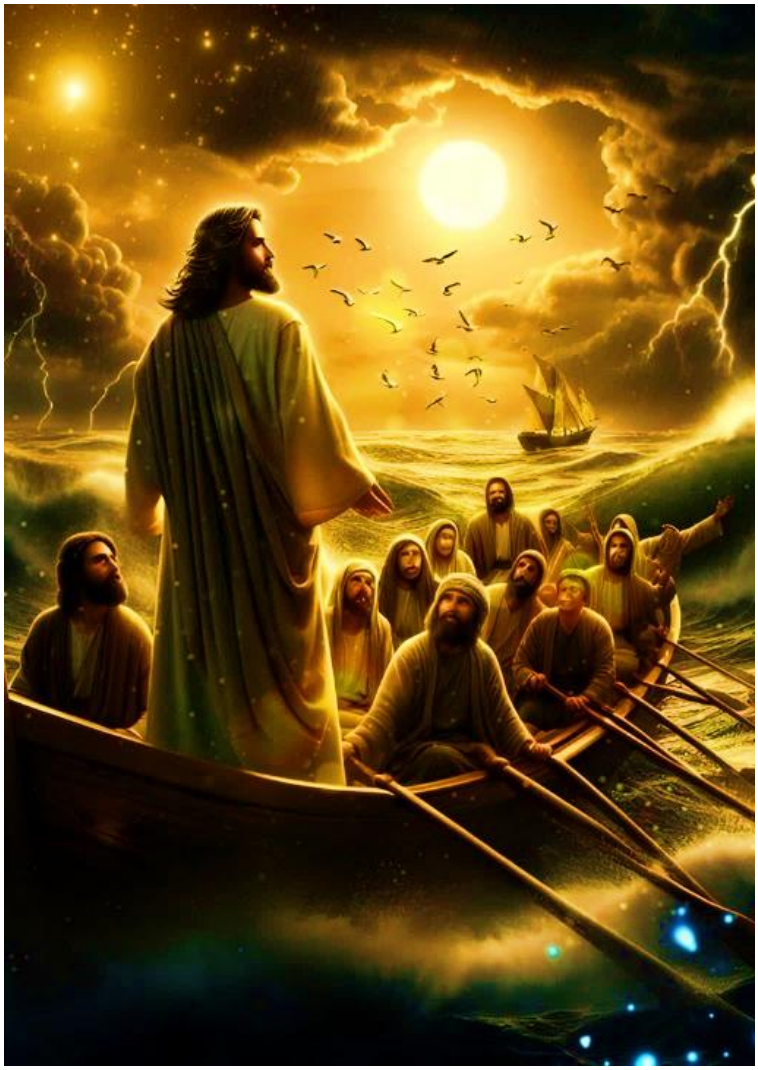
After making my way to the Pigeon Point bar I ordered a cup of Hennessy for myself and a Heineken for my younger cousin. He was ecstatic! We then headed to the sitting area and laid back as we observed the ambience. As we sat, we noticed two couples already seated having a wonderful time. We warmly greeted them then sat.

At some point one of the men asked me “Do you make music?” It was as if he already knew the answer to the question. After confirming that I do make music he asked me to sing a song to him. We both stepped to the side, and I began rapping my best song for this man. He was very pleased with what he heard. He then proceeded with his second question to me. Can you sing? I sang my best song to him, a song of sorrow. He became growingly more interested in me.

That yacht and those jet skis sitting on the edge of the water is mine. I have traveled the entire world, doing shows to my music. I am currently scouting musicians and would like to you be a part of my label. We can travel to the studio tomorrow here is my contact information if you’re interested. It all seemed too good to be true.

This was at the time when illuminati exposed videos first surfaced on the internet. I heard the voice of God nudge me that this situation is a set up. That the man as sent on an assignment to take me off the path he had set for me. It all felt too good to be true. The secular music I made conflicted with the nature of my relationship with God. I turned down the man’s offer electing to instead go off to college to study music.

Lord of Miracles



I arrived at Trinidad and Tobago that December with no money and a doubtful mind. Questions begin to surface in my frontal cortex about whether I had what it took to graduate. I reminisced on the prophecy given to me and said to God “Lord, you brought me to this point, and I am having faith that you would see me through.” “If you are truly God, provide for me in this situation.”

I felt renewed. I woke up early, completed my chores and prepared for my classes for the day. Just before leaving home, it began to storm outdoors. The clouds had made certain I

would be late for my first piano lesson. I looked up to the sky and asked God, “Don’t let this rain stop me from getting to class” I began walking forward briskly. The rain stopped as soon as I took my first step onto the pathway. As soon as I made it into the chapel doors, the rain resumed its dance. I then realized that my piano textbook was still on my dining room table. I stood before the door and said, “Lord grants me passage one more time, that I might retrieve my textbook.” Confidently I walked forward, and the rain stopped once more. I walked all the way back to the house, got my textbook and returned to the chapel. Then the chapel doors closed behind me; the rain began pouring again.

This would be the first sign I would get from God. I was searching for the one true God. As a child I had studied Hinduism, Buddhism, Islam, Judaism, Rastafarianism, Voodoo, and Santeria etc. and I was searching to find out which God was truly supreme. The key to my communication with God was through my faith. I displayed my faith by walking into the rain expecting it to stop. This took extreme confidence in God, and he takes pleasure in humans who have faith in his words.

Biblically God revealed himself in different ways to his most faithful servants. To Adam he gave the earth and every instruction of how to live. (Stern, 1998 , pp. Genesis 1-3) To Noah he gave the Ark and every intricate detail on how it should be built, before flooding the earth (Stern, 1998 , pp. Genesis 6-7). Hagar saw the angel of the lord who prophesied of her son. (Stern, 1998 , p. Genesis 16:7) Moses saw a burning bush that would not consume, calling himself I Am, and parting the Red Sea (Stern, 1998 , p. Exodus 3:2). God has a mystery about him that is beyond the natural. Miracles, Dreams, and visions are three ways in which God communicated with his creation. In Genesis

Healing Cancer

In 2014 I witnessed a series of miracles that would open my eyes up to the power of God. It all began when a friend of mine revealed to me her medical condition. Apparently, she was diagnosed with cancer, not having very long to live. As a group we individually prayed for her healing. I still recall my conversation with God. My heartache was beyond anything I had felt. She was the kindest woman I knew after all. The following week she had an appointment with her doctor, discovering that the mass of cancer that had grown in her body was completely gone. When multiple people come together to pray for something God honors it answering that cries of the collective. There is power in praying as a unit. When two or more people gather to pray for deliverance it is a covenant.

Book of Dreams

When I first received the prophecy of having a spirit of Joseph, I was reluctant to believe it. Emmanuel warned that every church has agents of Satan whose purpose was to cause confusion. It was not until I began having strange dreams, I would believe it myself. Elihu claims that, For God speaks once, and even twice, yet no one notices it. In a dream, a vision of the night, when deep sleep falls on men while slumbering upon the bed, then he opens the ears of men and seals their instruction, that he may turn man aside from his conduct and keep him from pride." (Amplified Bible, 1965, p. Job 33:14)

My earliest dream was in 1996. I dreamt that I was trapped in a coffin. There was a field of other people trapped in coffins. I saw a demon with a sword pricking me in the heart constantly. I suffered greatly at his hands before returning to the waking world. At a young age I was seeing the reality of the enemy humanity faces. For some reason at a young age I was already a threat to their faction.

God's First Revelation

In 2014 I prayed to God multiple times a day. I asked him to reveal himself to me much like Moses did in Exodus. At that time my faith was unwavering, if I prayed about something I expected it to come to pass. The following night I had a lucid dream. The night was cool and peaceful. While sleeping in a fetal position, I felt someone lay next to me. My back was turned to their direction. A voice whispered to me softly saying, "I love you." His voice tone was the most majestic sound I had ever experienced. I felt the sounds from God's voice brush against the back of my neck. I felt the wind of his words brush against the back of my neck. When I turned around, however; there was no one to be found.

God revealed himself to me through his voice. The significance of this revelation is consistent with John's biblical revelation of God. John alluded to this revelation when he said, "In the beginning was the word, and the word was with God, and the word was God."

(Amplified Bible, 1965, p. John 1:1) In my revelation God was fulfilling John's belief in God's nature being the word. God's declaration of love to me fulfilled God's claim to be love. (Amplified Bible, 1965, p. John 4:8)Jesus is the word became physical and walked among men fulfilling God's command. In the beginning Jesus was with God, and he was God. Then he became flesh dying for the sins of humanity. Then Jesus returned to heaven at the right hand of our father. I asked God to reveal himself to me and he revealed himself in a way that was consistent with his word. After this I became filled with the Holy Spirit.

Disclaimer if you think that my claim is to be some modern-day prophet, this is not the case. I am a sinner who is badly in need of God's mercy. I do not seek to get any fame or praise. I simply hope to record the revelations of God that I have experienced, to lead readers to know God. The purpose of life I have found is to enjoy life. Life can only be enjoyed when you know God. Worshiping God is the most enjoyable thing I have ever done. This book is written as a glorification of God in this historical time.

Interpretation

At age 15 I was fully engrossed in the world of religion. Due to the high school curriculum, I studied the Islamic, Christianity, Santerían, Rastafarian, Buddhism, and various other Caribbean religions and their different sub-sections. Due to this increase of knowledge, I became confused about my identity. I thought if there were so many gods, which one is truly God? So, my investigation began. The only God who met my challenges was Jesus Christ. The God of Moses, God of Abraham, God of Noah. Just like them he worked miracles in my favor, revealed himself to me in dreams, and spoke to me in the physical realm.

Being in a foreign country on student bond finance was not easy to come by. I worked when I was not at school and made money how I could, but I grew worried that I would not have enough money to survive this journey. At the time I was working for about 15$ per hour. My school balance was around $8000 so I decided to pray. I went on my knees asking God to meet his word that he would see me through this journey he has put me on. My words, “Father, you have brought me to this point, and I know you will see me through. Thank you for already making a way for me.” After my morning devotion I got a phone call. My Father had sent me $12000 commanding me to pay my school bill fees.

God is faithful to his promises. Only now I understand that through my prayer I had a covenant with God. However, unlike the dark covenants God wants you to share the revelations he has showed you with everyone. That is an important component of having a relationship with God. The nature of this relationship is centered on love, and being kind through the words that you speak.

This dream would be the basis on which I formed the foundation of the thesis for this book. I had now successfully conducted multiple primary and secondary researches to find the God of the scriptures. I asked him to show himself to me and he responded in a manner that I would understand. After this I would hear the voice of the lord as clearly as I would the voice of any friend. I then noticed that I heard this voice often as a child, simply thinking it was my conscious. To extend this hypothesis I assume then that my guilty consciousness came from the accuser. A role Satan would overtake after his defeat on the cross.

Principalities & Powers

One night I fell into a deep slumber. I saw myself standing in the street, fully clothed with a well-pressed suit. As I came to slight consciousness, I realized that I had been speaking from a brown bible, casting out a demon from a gentleman. He wiggled back and forth as I spoke convincingly. However, fear took over my body. It was like a force compelling me to be quiet. My tongue became heavy and my words slur. I immediately woke, shivering as I sat up on my college dorm bed. My mouth was still unable to produce any audio regardless of my brain probing my body to speak. Yet I was fully awake. How could something that happened to me in a dream possibly affect me this much after being awake? My thoughts became increasingly fearful as my inability to speak persisted for 5 minutes or so. I

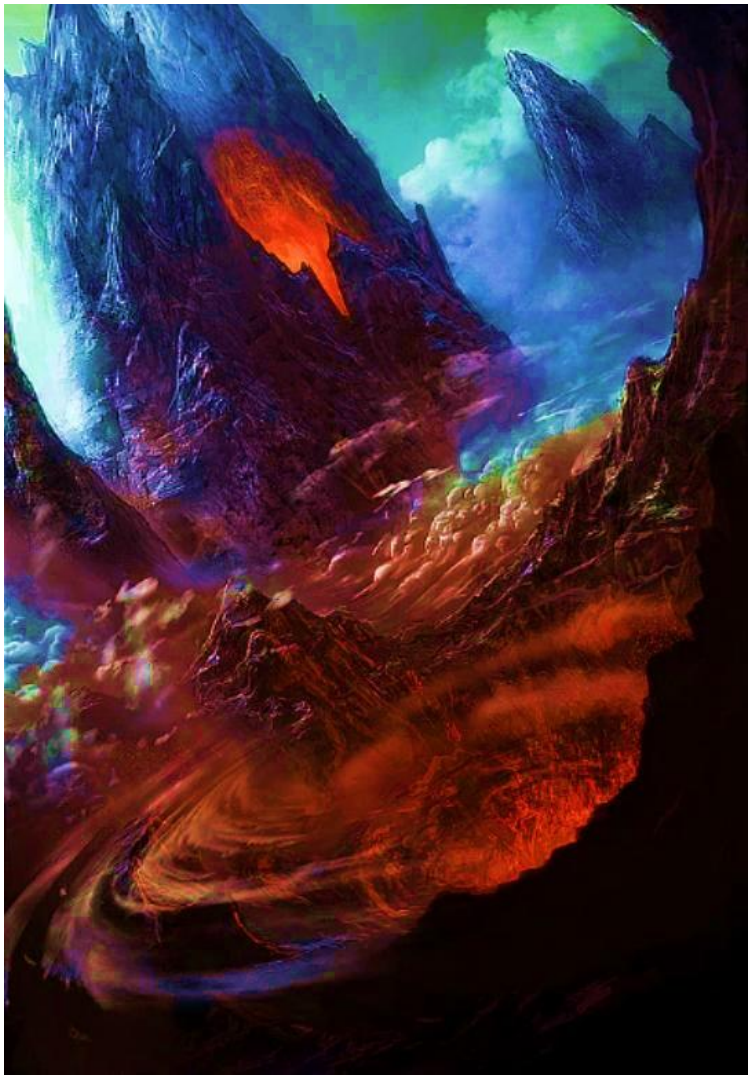
stumbled into the lightened hallway barely able to collect myself. I knocked on Paul's door and told him of the whole ordeal. We prayed together and asked for protection from evil.

This was one of the first dreams in which God showed me the forces of evil. Revealing that to follow him would be a battle of the spiritual kind. The dream realm was connected to the physical in a real way. Life is the battle of man against fallen angels. (Amplified Bible, 1965, p. Ephesians 6:12)It is well documented biblically that there are forces of evil seeking to influence mankind to sin; however, I was experiencing these things in modern times. They come at night appearing as light, but their mission is to block your sight. No matter how hard it gets remember it's only God who will win the fight. My enemies are spiritual, the fallen ones who have targeted and killed many before me. I immediately knew that good and evil is real and that I would have to make a choice. I chose to be good and serve God. God was showing me the fulfillment of his word that we wrestle not against flesh and blood, but principalities and powers in high places. I believe God was revealing to mankind that angels fallen from heaven seek to destroy humanity.

Fallen Angels

On several separate occasions I saw Fallen Angels and other agents of the devil appearing to me in dreams. In each instance I was unable to move due to a force that compelled me to be still. It began as sleep paralysis, and for a time I truly believed nothing spiritual was attached to feeling like you can't move in a dream. However, as I grew spiritually, I began to see creatures that are difficult to describe with words. A fallen angel is what the bible refers as angels who used their freewill to oppose the heavenly kingdom. Think of this kingdom as another earth which is the embodiment of God's goodness.

Shadow Man



One night as I slept, I woke up yet was unable to move. Usually, I would just say the name of God and would be freed. I would often spiral in my panic and anxiety, unable to correctly observe the environment. This time I was curious as to what was the cause of my inability to perform basic human actions. I scanned through the four corners of the room. My vision was impaled due to how dark atmosphere. As my eyes met the mass of space in the corner of the room I saw it. What stood in the distance was a cloaked figure even darker than the room itself. As if darkness determined the space of its form.

I saw a shadow in the corner of my room. I mostly recognized its eyes, yet the features of its body were unrecognizable to my visibility. It was humanoid yet there were no clear indications this being had arms or legs. The eyes red like bloodshot. I woke up after realizing that regardless of what it looked like, this thing was pure evil. I knew this thing was an angel because of the force which jolted out of its body. I somehow knew that the force that constricted was not a result of the ghost touching me, but rather a part it the presence of evil. After clearly seeing that there was something spiritual in the room with me, I woke up. When I sat up on my bed, I quickly looked in the direction where I saw the entity. To my disappointment no physical evidence of the angel came to greet me. Devotion was mandatory to ward of the spirit and cleanse my room of any windows.

Succubus Tried to Get Intimate

Another night I woke up in a strange dream. As my consciousness sharpened, I saw something that I fear to speak of for fear that people thinking I am mentally unstable. As I looked up to the ceiling I could see the figure of a thin wasted woman. Her body was beautiful, but her face had no human comparisons to speak of. She had no face like a monster from Stranger Things. I noticed she was trying to sit on my face. However, no matter her attempt there was a barrier between her and I. She made multiple attempts to get through the hedge but all attempts were futile. Then I saw that in the spirit I was a Giant. There was nothing that the enemy could do to harm me. When I woke I went on my face before God thanking his for his glory.

Shadow Person

At night I felt a force coming from my bedroom window area. My back was facing the window, so I responded to the force by resisting. Although asleep I felt awake enough to contort my body. Just then I saw him. He was like a shadow with eyes as red as fire. He resembled a human but somehow, I knew that this was a fallen angel. He stood at my window with piercing eyes but for some reason he was unable to come through the window. As I said the name Jesus, He vanished just like the reverse flash speedster, quicker than my eyes could blink. The figure's movement was as fast as a lightning struck. However, his movements were apparent to my mind's eye. To perceive his movements implied that I was relative to his speed. I was already familiar with this type of speed through memory of previous dreams. As I grew in my relationship with God he revealed to me my identity through these dreams. He had bestowed a power within me could evade,

protect, or straight up oppose the powers that my enemies possessed. The shadow's movements made me remember that Jesus is described to move as fast as lightening when he returns. After all God is described to be a consuming fire. A being of light, the problem is Satan is said to also be capable of appearing as an angel of light.

Neighborhood Witch

This is one of my most memorable dreams to date. I remember it like it happened yesterday. I was walking down a familiar neighborhood road. The road in real time was rebuilt and new but, in my dream however, the road was old and broken. As I walked down the slippery mountain, I noticed a person approaching me. As we drew near, she

recognized who I was, and I recognized her. It was an old woman everyone in the area rumored to be a witch.

After confirming that the person she was seeing was me, she started to speak in a different tongue or language. I could feel her spells going up to the sky. She started to become young, and her clothing changed. Her attire would become that of a witch as youth returned to her face. Something changed in me, and I also transformed. I turned into a speedster like flash, and I sped out of her reach. My speed took me out of the reach of her spells. In that moment I knew that in this spiritual battle we have the power to fight back against evil. I have not physically seen the witch in many years since she appeared to me spiritually. Many have told me that she is bedridden and incapable of showing herself to the public. After these experiences I began to understand who I was, and what God's purpose for me was. To date she has perished and no longer terrorizes the community spiritually.

Lucid Dreams

I went to bed one night and instead of falling asleep I woke up in my dream. Around me I noticed trees, and vast land scape but the color was majestic and vibrant. For instance, the trees landmass was purple and other colors that I could not recognize. Every stone that was attached to the ground was rich like jasper. I knew that this was a view of what the spirit realm looked like. Armed with that knowledge I was determined to fly.

I shot up into the atmosphere at the speed of sound like superman. From there I thought I could have a better look at the landscape. The mountains and trees were unlike anything I had experienced before. They shore with a luminous glow, decking in a mysterious darkness. I felt like Peter pan. The experience was less like flying and more like floating.

I thought for a moment of the dangers that would result from me falling to the ground. At that very second, I began to lose altitude. It was as if my thoughts governed my limitations. My last attempt to save myself as I crashed into a mountain side was to use my hand as a shield to protect my face from being damaged. I woke up after landing, brain still under the illusory feeling of falling. The results of my experience were that for 2 years my left arm would feel like it was broken.

This dream taught me that the spiritual was even more real than the physical world we know today. Conclusively if I had died in that dream, I would be dead in the physical realm. My life began resembling a Matrix movie. My spirit was capable of way more than I could ever begin to understand. This was the power that I had in God. By being faithful to him he gave me aid and allowed me to see things of the supernatural kind.

Spirits within Technology

I went to bed one night in 2019. I lived In the Turks and Caicos Island at the time. Instead of falling asleep I would wake up in my dream. The dark room I was lying in was bright and colorful. My view in this dream was remote and I could see my body lying in bed from above.

I saw an invisible being teleported into my room by using the I Phone which was next to my head. The spirit used my phone as a portal to get to my room floating in the atmosphere above me bed. Its body resembled invisibility in shooting games. Yet I could see its

features opaquely camouflaging themselves with the physical. I subsequently woke looking around my room for this being. Yet there was nothing around.

God revealed to me technology's ability to allow spirits to transfer themselves to any host. I believe that spirits need the technology we use today to interact with mankind and God was warning me of this from 2019. Emannuel confirmed that under the sea were scientific laboratories designed to create all types of technology. The archetype of the interface now known as operating systems were once called Windows. A window into a world filled with our wildest fantasies. Four years since this dream the division of families and communities has been influenced by social media at an exponential rate. The human birthrate has tremendously decreased while we spend all this time glued to screens of deception.

My First Encounter with Satan

I had a dream that I was in a room. In this room a presence appeared to me. An entity announced itself to me saying “I am the God of this world.” Cloaked in the shadows and hooded he refused to show me his face. He asked me to pledge my allegiance to him. He offered me the world. However, I rejected his offer causing him to flee. My words to his dismay, “I serve the God of darkness”. There was no sense of fear in my experience.

I then woke up to a sunny afternoon. My home was filled with people. We seem to be having a party. Some people attending were friends and others were strangers. For some reason I have no recollection of the names of these friends. Yet they gathered around me as

I told them about my previous dream. Having been visited by Satan himself and calmly rejecting his offer of this world. Mid-sentence the scenery changes and everyone disappears. The entire atmosphere became a dark void as I fell unconscious.

I woke up from my sleep to a house of darkness. I sat up, removed the sheet from my feet and stormed through my room door. As I walked down the hallway I heard no sounds around me. In my kitchen area right next to the kitchen doorway stood the shadow of a woman. We were about relative in height; her stature was slim and sensual. After asking her what she was doing she quickly ran up to me. I felt an ominous sensation rising. I said the name Jesus. She grabbed my face to shut me up. The words could hardly make it out of my mouth. Yet I continued to say his name. Jesus. Suddenly, I was back in my room again. Scared and shivering I played psalms 91 and 23 for protection.

I believe this dream to be a warning. Satan's offer meant that he saw me as a true Christian and simultaneously it meant that he was as real as I was. The second dream meant that if I were to tell people about this dream, they would isolate me. The third dream was like a promise to destroy me. It really made me remember Emmanuel's account of a television that exists in the spirit world of every true Christian. I often wondered whether I was on this list of those who are up on that screen.

Dreams of Murder

I woke up last night and was severely almost traumatized. For the second night in my entire life time I had dreamed of Murder. From my vague memory this is what I could recall. I was at home with my neighbor. I remembered seeing my mother walking briskly down the mountain. I remember feeling a bit of calmness knowing she was approaching.

My friend went to the toilet to urinate. I remember checking my pocket and there I found a cigarette. I made remarks to him that after he was done we would smoke together. He responded that he was willing to smoke with me. An eerie feeling came over me and I observed a person walking from the backside of my house to the side area. However, anticipating the individuals coordinates my eyes rested on a nearby window where the person was to appear. My neighbor grabbed me from behind attempting to bind my hands to kidnap me. I fought him off and in a manner that was supernatural and escaped his clutches, through a window and down the hill I ran. My mind was to get to the closest house and ask for help. As I approached the witch's house from my previous dream I heard an animal scratching their claws on the wooden interior as if it was aware of me decent. As it jumped out of the window, I noticed it was a cat. Out of fear I kept running and stumbled onto the nearest house. In the real world the area where this house stood there is empty. I ran straight to the door of the house which was open. I only recognized one person out of the five who sat before me. Everyone was startled by my sudden appearance. The person I assumed to be the owner of the house stood up and going for a weapon of some sort. I frantically begged them for help saying someone attempted to kidnap me, repeating myself several times in an attempt to convince them that I was not a threat. When the owner of the home appeared from behind me he showed up with a broom. I wanted to ask for a phone to report the incident to the police, however; the house owner kept saying over and over "you are going to die!" I asked him "I am going to die?" A second time I asked myself, "I am going to die?" A huge confidence came over me as I thought to myself "I cannot be killed." I arose to a dark room and a huge sense of genuine heaviness in my heart.

This would mark a second night I dreamed about killing. Three nights prior to this one I had dreamed that my father and brother has a huge altercation. I never dream about family members in particular before this. Their fight got so full of hatred that my father attempted to murder my brother. My father pulled a knife attempting to slip my brother's throat while they tussled on the ground. The scariest part of this dream was that I picked a side but came to my senses as one of the pushed me off. I immediately woke up to realize it was all a dream.

Dreams of the Future

Recently more and more people have been coming to me about their dreams. I have gotten the permission of these people to record their dreams as an account of history.

Dreams are not just a manifestation of the mind but one of the doors between known and unknown reality. Nikola Tesla for instance built a mechanism he claimed that uses an antenna to harness the electrical field of the earth to power the generate power. He applied this theory by installing this device into a car engine. The transport ran for two weeks without losing power. (Alternating Current Electro Magnetic Motor, 1890) The foundation for the Tesla brand we know it today.

If you were to do a google search of Tesla today all you would see are articles of the global organization led by the Ceo, Elon Musk. It is recorded in history that Nikola, after having a life-threatening condition, fell into a coma. While dreaming he saw the patent designs for what his inventions would one day be. Albert Einstein spoke of the power of dreams and how he used his dreams to think more critically about the problems of the waking world.

Deception

This is a dream of a dear family member of mine who is trying to know God. One night he revealed to me a dream to which no ears have heard. I listened quietly as he sent a probe to his brain's recollection data. He saw the familiar sight of his grandmother’s neighborhood house. However, as he looked up into the sky unfamiliar things began happening. The skies became filled with anti-gravitational stars which projected holograms. The illusions they projected looked as real as the physical realm itself. The scene represented something from the Spiderman Homecoming film.

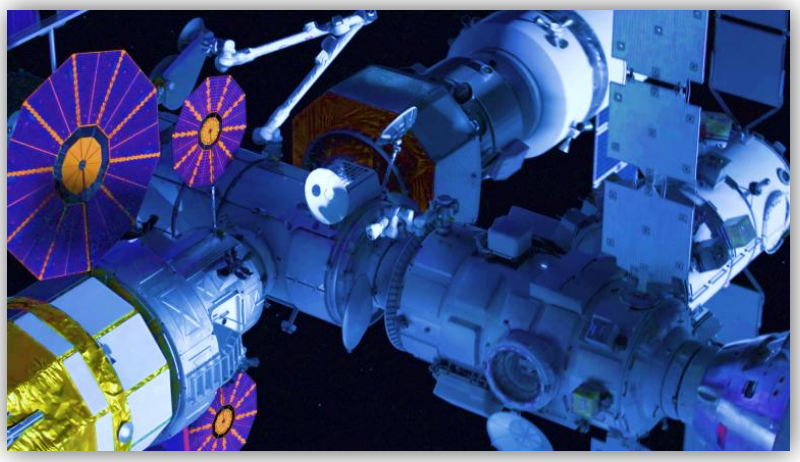
Mysterio the antagonist played a role of a man who possessed thousands of microscopic drones which projected holograms used to deceive the entire world. Everyone thought

> Mysterio was a hero who saved them from eminent danger many times. When in fact Peter had discovered that the appearance of these monsters seemed to be projections of Mysterio's drones. (Spider-Man: Far From Home, 2019)

This would be Spiderman's greatest nemesis, although The Green Goblin knew who Peter was. It would take Mysterio to be the first villain to reveal to the world that Spider-man was Peter Parker. Mysterio was not only deceptive he mixed truth with it revealing a satanic tactic.

I believe that my cousin dreamt of the future and how Satan will deceive the world. There will be a time in which angels of light will bring about a great time of deception. A time when the bridge of reality and illusion is tested. This war will be a battle for the minds of the people. Satan wants every human to serve him as God. This new Anti-Christ religion is the worship of technology as the new God. A God created in the image of man. This creature will be an unholy replacement for Jesus.

Science and Religion



With the help of the Holy Spirit, I became expeditiously wiser. My grades went from average to excellent. After forcing myself to love reading and understanding what was read, I activated the ability to visualize things that I have read in my mind. I recall taking a course called Science and religion. The findings of my research concluded to answer the questions that science creates, theology is needed. So the two studies can be used hand in hand either for good or for bad.

Archaeological Evidence Proving the Legitimacy of the Bible

Exodus Pharaoh

Let the chapter begin with the reference of Josephus who wrote about the two pillars of Methuselah, Noah and Shem. This was two monoliths created one year before the flood which inscribed the history and discoveries of the world which stood in Moses time 777

years later. Methuselah talked with Adam 43 years learning the history from the beginning. (Adam's Synchronological Map, 1871)

In 1898, archaeologist Victor Loret excavated the tomb of Amenhotep II. Today this tomb is considered to be correlated with the Pharaoh of Exodus story in the Bible. Loret found various statuettes with name Amenhotep II attached to them. However, one of the ushabtis were inscribed the royal prince Webensenu. Egyptians believed that these funerary statuettes would do little tasks to magically serve the dead in the afterlife. Based on this finding Loret determined that Webensenu was the son of Amenhoptep II.

When the mummy of Webensenu was found the head of the child was shaved completely except in one spot. This was known as a prince's lock. Then canopic fragments with the organs of Webensenu were found making it evident that he was buried in the tomb. Websensenu's name in ancient text is Son of Amenhotem II who died at birth and buried with his father in tomb KV35, Where his body probably still lies. His name is also on the block statue of Minmose, from Karnak. (The Complete Royal Families of Ancient Egypt , 2004)

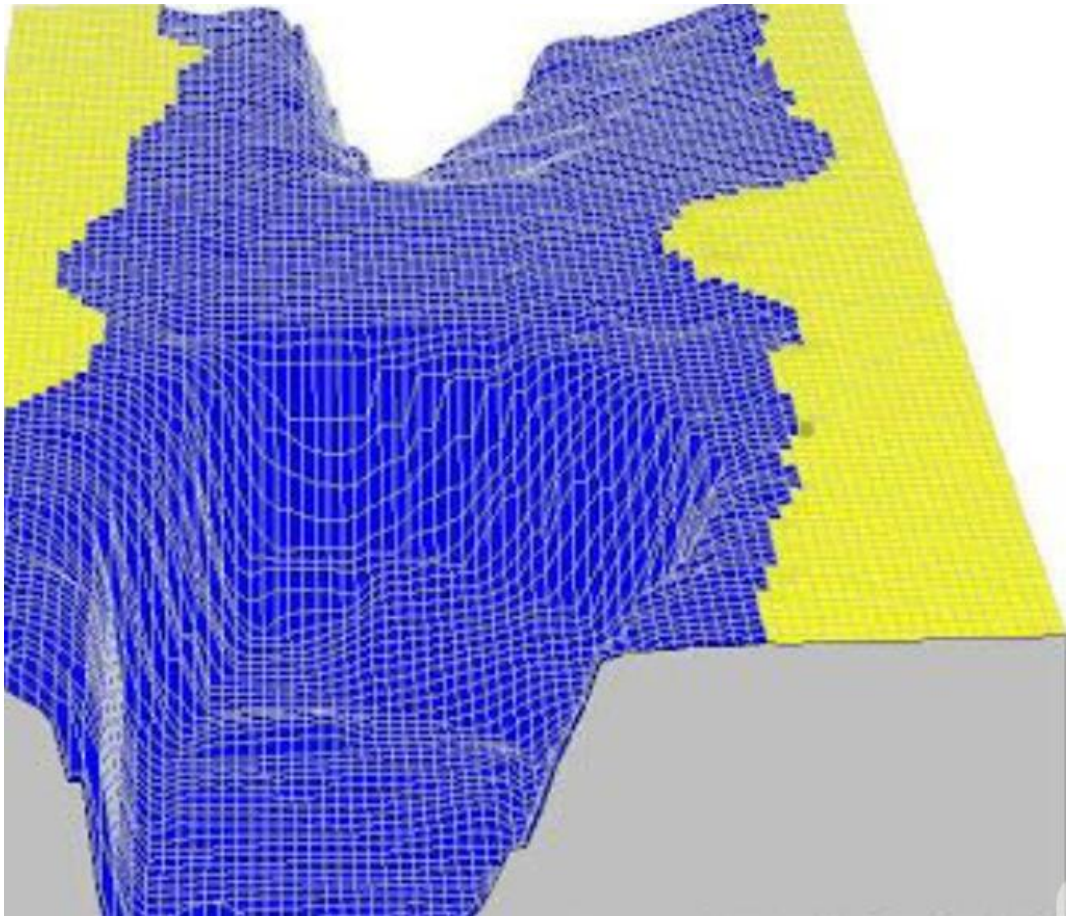
G. Elliot Smith later studied the mummy of Amenhotem II was moved to the Cairo Museum in 1902 by M. Maspero. When the shroud which bore his name was unwrapped and reported to Mr. Howard Carter. It was reported that the skin over the whole body was thickly stabbed with small projections or tubercles. The professional said that potentially the markings could because of a disease or a result of the way the mummy was embalmer's salt bath. They were boils like soars that Smith exclaimed was very unusual. The only

mummy in the Valley of the Kings that was covered in boils was Amenhotemp II. (Catalogue of the Royal Mummies, 1912)

When the king is buried his tomb is sealed off meaning it was certain that Webensenu died before his Amenhotem II. This perfectly parallels the biblical account in which Moses recounts God smite the entire first born in the land of Egypt including the first born of Pharaoh. (Amplified Bible, 1965, p. Exodus 12:29) In addition Moses sprinkle ashes toward the heavens before Pharaoh, and boils took over the skin of every Egyptian's men and their animals. (Amplified Bible, 1965, pp. Exodus 9:7-10)

Another important detail about the exodus account is that it happened in 1450BC. Amenhotep II ruled for 27 years ironically around the time period of 1450. Thutmose III his father ruled for 54 year. Ironically Moses left Egypt for 40 years after the Pharaoh at the time had tried to kill him (Amplified Bible, 1965, p. Acts 7:29). This coincidently perfectly mirrored the 54 year rule of the Pharaoh Thutmose III, the father of Amenhotep II. (Amplified Bible, 1965, p. Exodus 2:10) The only Pharaoh who ruled for more than 40 years in fact is Thutmose III. All of the evidence found that Amenhotep II and Thutmose III were the Pharaohs who ruled in Moses time. This discovery should be one of the most famous scientific evidence of the bible.

The Chariots



Science and religion is intertwined meaning scientific discoveries are evidence of biblical facts. Another example is how where Ron Watts used the biblical description of where God separated the red sea. He identified the area the Israelites were trapped against the sea, and used bathymetric maps to locate a small area where if the water was removed could be used to cross. The area had cliffs on both sides of a drop of over 5000 feet. After a deep dive exploration of the sea floor, chariots were found preserved by the coral reefs wheels of chariots. The axels which held the wheels on both sides were found, however that which was not covered in corals were disintegrated, this was evident through the observation of a

gold chariot found. Only the parts of the chariot which were gold survived. More evidence showing that the story of Moses is credible.

Paranormal Phenomena

Let's review a scientifically case of reported angels. Multiple Russian astronauts on their space voyage saw what they explained seeing light beings with wings. Commander Olgen Atkov was told that it was a mass hallucination created by the space travel. How do several people all hallucinate and see the same thing. This excuse of an explanation reminds me of the sighting of Jesus after his death. (Angels Seen in Space, 1984)

This account reminded me of an analytical study in which the CE4 Research group discovered that after analyzing more than three hundred abduction cases. The results of this analysis showed that people abducted reported that abuse stopped through the power of Jesus's name. The research showed that regardless of whom the abductors were identified as, they feared the name Jesus. David Ruffino, and Joseph Jordan did not however make the case that aliens were or were not demons, (The Alien Abduction Phenomenon, 2018)

It begs the question is why would aliens fear the name Jesus? Based on the findings this seems to be solid evidence in favor of aliens being linked to demonology. From personal experience I have had dreams in which I have seen demons looking at me from across the room. Upon the mention of Jesus however, I was released from the strong hold.

The Dragon Deity of Old

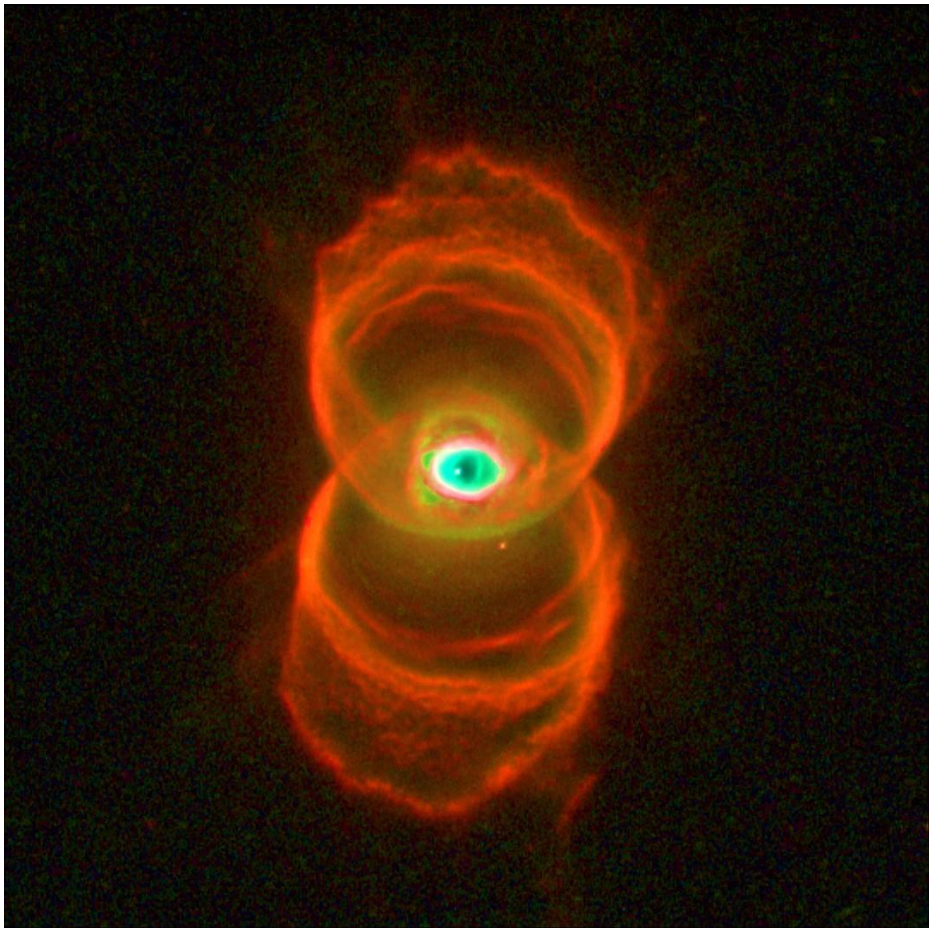
Let's visit the account of Nathan Reynolds. His family was involved in the ancient practice of serpent worship. These are individuals very aware of the supernatural. His family was under a covenant with the dragon making them his ambassadors on the earth.

Through selling their children and giving of their blood they were given power under the dragon's dominion. The family he declared "would operate in their daytime lives as sincere Christians, but at night were deep seated luciferins". Their mission was to traffic the souls of the living. (Snatched From The Flames, 2018)

He was wrapped into this cult through trauma to fragment his identity between these two worlds. On one path he was keeper of the covenant of Apollo, and on the other he becomes a member of the special kill teams with the US Military. Ultimately one day he would bleed out and as death (a spirit he was familiar with) came to claim him a man stood between them. For the first time he saw death's expression of fear and realized that there is someone in authority that can command death.

He exposes that he was initiated in an active Catholic Church. He was sent as a child to perform sacrifices to the goddess. The Mary statue he exposed to be Echidna the Greek goddess. Echidna in Greek means "she viper" a half woman half snake responsible for the birth of the Sphinx. The father of the sphinx was a monstrous giant.

He claims that their religion is based on the same goddess of old. Idolatry has been rebranded as materialistic, and vanity. In analysis of these findings, the US military, Catholic Church, and Occult has a common denominator. All three of these organizations were alleged to have the mission of harvesting souls. (Snatched From The Flames, 2018)



In 1996 8000 light years away NASA captured this image on the Hubble Space Telescope of what is formally known as Hourglass Nebula. Many compare the star to the biblical angels Seraphim. (Hourglass Nebula, 1996)

These angels were described as something that looked like a wheel on the ground. The wheels were identical sparkling like the diamonds in the sun. It looked like wheels within wheels, like gyroscope. (Amplified Bible, 1965, pp. Ezekiel 1:15-16) Galileo would be proud of what has been accomplished in the 21st century.

Behind the science of modern times are bankers who are willing to throw money behind profitable breakthroughs. Besides the bankers are men looking for military advantages

using these strange sciences. These are not the Galileo's, Newton's, or Nikola Tesla's who worked in solitude and were supressed after publishing their findings. Some scientists are well paid cogs, funded by governments, corporations, and banks. Many of these individuals do not consider the implications of science and do not worry about morality. (Forbidden Gates , 2010)

Galileo

Scientists of old were not only interested in the perfect design of the universe but also in the intellect being who designed that perfection. I observed an analysis by Galileo referencing Aristotle's theory on the perfection of the number three. The study was based on physics, motion, and velocity. His findings can change the fabric of the theological landscape. (Dialogue concerning the two chief world systems, 1967, p. 11)

Aristotle according to Galileo made the argument that the world is a perfect body, Gods chief work. He then divides the world into two parts celestial, and elemental. Celestial he describes to be incorruptible, in alterable, and impenetrable. The elemental he says was exposed to alterations, and mutilations. In other words he claims the world was partly unchangeable and partly changeable. This is the order of all things he purposed. (Dialogue concerning the two chief world systems, 1967, p. 11)

Nature

Describing nature as a principal of local motion, motion he broke down into three kinds. Straight, circular, and a mixed straight-and circular. He called the straight, and circular motion simple, and the mixed-and circular motion he called composite. The Simple motion he concluded to be a combination of three things: the center, away from the center, and

around the center. Mixed-straight-circular motion he calls composite motion. Composite motion is bodies that move in a way that's determined based on their composition. This meant that the object moved mixed of straight and circularly based on its shape. (Dialogue concerning the two chief world systems, 1967, p. 12)

Today we propose that the earth, moon and planets move within the category of natural bodies that move circularly. Galileo proposed that the natural motion of everything was not natural at all. That naturally everything was not made to move but to be still. Begging the question what caused things to begin moving.

Now they had failed to mention how the parallel biblical identity of God is wrapped in the number three. One trait of God for instance is to say things three times. Another example of the relevance of the number three when related to God is when God revealed himself to Abraham as three men. (Amplified Bible, 1965, p. Genesis 18) Some theologians argue only one of the men were identified as God. However when continue investigating the the lord rained brimstone and fire from the lord out of heaven. Using these findings we can better understand the mystery of God being one meaning he is whole, or complete yet having three parts the father, son, and Holy Spirit.

In the account of the creation of heaven and earth God made a dome and divided the water under the dome from above the dome. Then after naming the dome heaven, he gathers the water under the dome into one place and made dry land appear. God called the land earth and the gathering of the water sea (The Septuagint Verson of The Old Testament, 1879, pp. Genesis 1:6-10). Three properties that today we know as earth. Many conspiracy theorists have been debating its shape and complexities completely leaving God out of the

equation. What's more interesting is that in this text we are first introduced to the spirit of God. Later, in the text we see God speaking to himself saying let us make mankind in our image. Some say that Jesus, God and his spirit was present before the earth was. (The Septuagint Verson of The Old Testament, 1879, p. Genesis 1:2)

Biblical Application

My argument is simply that the earth being the whole yet being made up of sky, sea, and land is evidence of God. Humans having a soul, spirit, and body mean human are the whole soul spirit and body being the part that make the whole what it is. Likewise God being the whole is made up of the parts the father, son and Holy spirit the parts that make the whole what it is. So God being one does not contradict himself by being made of three parts. On the contrary it complements the theological claim; this very principle is evidence of the God of the bible to be truly God. As his very creations is made in his image. Reflecting his eminence is a perfect manner. How could God be love if he could not share love with himself. This is why God is whole while being three persons.

Speaking of perfection however, let us replace that word with corrupted, or changeable. I will introduce you to an ancient concept of the earth being corruptible, alterable. Galileo theorized that earth is then different to its celestial counter parts which are to our observable eyes are unchangeable, and unalterable. (Dialogue concerning the two chief world systems, 1967, p. 16) Concluding that the earth is degenerated which the bible explains to be a result of sin.

Celestial Planet vs Natural Bodies

Aristotle saw as nature biblical is in fact unnatural and the celestial planets nature. The corruptibility of the earth is direct evidence of the sin. As observed above both mathematically, and astrologically. Therefore, the incorruptible natures of the celestial bodies which exist in the heavens are as well evidence that once the earth too was celestial just like God has explained theologically. “It is good!” and so it was, can be directly translated to perfect, uncorrupted, eternal. Capable of regenerating, immortal, while everything on earth being mortal.

How can we verify whether heaven (space) has no mutilations?

Heaven is inalterable because none of our ancestors have ever detected corruption, or alteration in the heavens. “On earth I continually see herbs, plants, animals generating and decaying; winds, rains, tempests, storms arising; in other words, the appearance of the earth undergoing perpetual change. None of these changes are to be discerned in celestial bodies, whose positions and configurations correspond exactly with everything men remember, without the generation of anything new there or the corruption of anything old.” (Dialogue concerning the two chief world systems, 1967, p. 17)

Is a planet unalterable because the alterations cannot be observed?

From the oldest records Galileo had possessed, at the Straits of Gibraltar, Abila and Calpe mountains were joined together with some other mountains which held the ocean back; but something caused the mountains to be separated creating the Mediterranean as we still call it today. This alteration he assumed to be so gigantic that it is reasonable to think it could be observed from the moon. (Dialogue concerning the two chief world systems, 1967, pp. 19-20)

Many argue that changes in the sky in modern times like comets perhaps did not happen in Aristotle's time. However, the work of Scipio Clijaramonti favoured Aristotle admitting that comets were fundamentally not celestial bodies but was elemental. Meaning they are pieces of corrupted particles floating through the heavens. To sufficiently prove that the heavens are corrupted you would have to observe mutilations in existing celestial bodies. (Dialogue concerning the two chief world systems, 1967, p. 23)

In regards to "new stars" being found as a way to prove that the heavens are alterable, they are simply heavenly bodies that are new to mankind. To prove that stars are alterable one need to show alteration in already described stars. This is an illustration that has not yet been demonstrated in even in 2025. (Dialogue concerning the two chief world systems, 1967, p. 24)

Using telescopes scientists determined that they observed the sun produce and dissolve dark matter. The phenomenon they described to be like in the same manner that the earth create clouds. A mutilation they claimed was so much bigger than the Mediterranean Sea, Africa, and Asia combined. They also observed sun spots. Galileo determined this report to be a fable or an illusion of the telescope. He also asserted that it is possible that air (an alterable element) is possibly coming into contact with the sun. (Dialogue concerning the two chief world systems, 1967, pp. 25-27)

What are planets and stars according the fathers of science

The unalterable nature of the stars and planets themselves bear witness to the existence of God. The biblical claim is that the heavens and earth were created good. Alterations was introduced into the earth in the form of sin. Good in the context refers to perfect or

unchangeable. Galileo was certain through his telescope that the planets and stars were a collection of opaque objects.

The movements of the planet as we discussed earlier has three types that are always the same. As a result some of the celestial bodies that are not apparent are simply being hidden by the moon or sun. The motion of planets and stars being the same are a testament to their inalterability. If they are in actuality unable to be altered then that result would fit the narrative of the Old Testament. Galileo's conclusion on this matter was that it is observed that the motion of the planets and stars around the sun are direct evidence that the celestial bodies are not decaying. The stars and planets cannot be seen in the day because of their "proximity to its immeasurable light." (Dialogue concerning the two chief world systems, 1967, pp. 24-25)

Supernatural Technology

Two days before the historical solar lunar eclipse of 2024. I saw an astronomical site that would leave all who saw it baffled. I share the content of this story with you in reluctance. My hesitation stems from the reality that many will consider me to be crazy. Nevertheless, I will not let a person's opinion stop me from sharing my account of the many times I have encountered the supernatural. I observed while over 100 beings of light gathered in unison. They seemed to be hovering elegantly. It resembled a gathering of an intergalactic space fleet. I saw over 100 orbs of lights gathered moving in perfect alignment with the moon. They then disappeared before the naked eye. These entities moved beyond our vision seeming to curve behind the moon.

Many others who witnessed this siting insisted that it must have been Starlink. However, when we observed previous videos of Star link sightings, these light beings were very different to videos of the Starlink technology. Each satellite moved in a straight line

robotically. The creatures we saw seemed to move in an anti-gravitational manner. Graceful it floated above as they danced light years away from earth. Something resembling a space fleet assembling for War. Surely this had to have been an astronomically rare event.

My fascination with death it began with my ability to relate to the supernatural experiences of others. From birth I was diagnosed with chronic asthma. One day I was so sick that I became bedridden. It was so difficult to breathe that I gave up on life. I began to drift away as I looked up to the ceiling in tears. Moaning was the only relief I could muster in this situation. I recalled beings of light began to appear before my eyes. Their movements were that of antigravity, they seemed to be floating above me. Although paranormal in appearance their dance seemed almost natural. Their presence felt real, like their bodies were physical. Was I hallucinating from the drugs prescribed to me? Had I

truly crossed over to the other side? Were those angels I saw? Did I really see beings of light, or had I gone crazy? This was my first encounter with the supernatural world.

US Military Whistle Blowers

Three whistle blowers present to the Capitol Hill congress 3rd hearing on unidentified anomalous phenomena, eyewitness, video account, of aliens. Three Navy Air Force veterans give their accounts of encountering light beings. They however these whistle

blowers lost their jobs, investigations, lawsuits, and criminal charges. The truth can cost them mental, psychological, emotional harm.

Mr. Dylan Borland reported seeing a white light 100 feet in the air. A weather balloon he presumed. As he walked towards the light it flew closer to the base. He described its dimension to be triangular. It's size? Like a football field. He described the colors to be like something you see on a James Webb space telescope. The craft to be metallic all around, but the top was gold fluid going around the craft.

The craft was evasive and was able to move at light speed before his eyes. Mrs. Luna Chairwoman asked if this phenomenon is beyond human capability to craft. The answer to the question was too classified to respond to. The speakers implied that large organizations are secretly investigating UAV's for years. These officials seem to think it is in the public's best interest to keep some information confidential.

A video was reviewed of a light being moving in an anti-gravitational manner. After a few minutes a missile locked onto this device and was fired making contact with its target in seconds. Upon contact the missile went straight through the object without exploding. It almost seemed as if the UAV moved around the missile like plasma or another out of world liquid. The debris left behind followed the part of the craft that was still connected, floating away gently following the main body. (Bombshell new Video Shows Us Military's Direct Hit on Glowing UFO With Hellfire Missile, 2025)

When UFO's were first discovered as explained by Mr. Knapp officials kept it confidential to prevent wide spread panic. Over time there would be various eyewitness

account, captured on radars, and jets that would chase these objects. They were told it was a temperature inversion.

Upon an investigation done by Robert D'Amato on area 51 approved in 2020 by the freedom of information act, we discover that in 1970-1975 the CIA were experimentally reverse engineering 12 vehicles per year. Francis Gary Powers shot down an Unidentified Anomalous Phenomenon; they conspired to harvest the technology they uncovered. This was a top secret test program known as Project Aquiline. It was intended to create long range vehicle that could use stealth to gain access to places a regular vehicles would otherwise been denied access to. The purpose of these experiments was alleged to combat the Russians and Chinese. (Aquiline, 1970)

The world's military organizations are aware of the alien crafts and are actively seeking to harness this power for their own grain. It once again sounds like something I seen in Men in Black Movie. It makes you question this sudden rise in technology that we have experienced in the past 10 years. Are the inventors and scientist seeking help from the dragon for their breakthroughs? The evidence is heavily in favor of it being exactly so. Mr. Borland explained that the question to find out whether AARO has scientific evidence of extraterrestrials is a misrepresentation of the full truth. To prove that piece of technology is from another planet, you would need to go to that planet and bring the technology back.

They however have many confidential artifacts considered to be extraterrestrial. Apparently some of these UAP crafts can potentially be of human creation. As Jeremy Corbell exposes on his podcast that the US government has admitted they have one UAP in storage. The evidence however, favors the idea that UAP's are extraterrestrial. The

government has admitted that UAP's are real and can perform things that science cannot explain. What is known is that the propulsion systems used by these crafts are different to those humans use. They leave no heat signature or indication of acceleration.

Non-human intelligence is now by the admission of various government officials as a real thing. Scientists have come out and admitted that the CIA has been working to reverse engineer this intelligence to aid in military advantages. Granted the fear expressed by this intelligence at the mention of the name Jesus proves that these UAP's are a new name for what we once considered demons. If these beings were like humans why would they fear Jesus? (Forbidden Gates , 2010, pp. 24-25) What have been the results of these experiments of reverse engineering and how has it impacted the technology we invent today? All-domain Anomaly Resolution Office seems(AARO)to have to interest in only admitting that UAP's are real but seem to be interested in shaping the narrative on UAP's they do not want the public knowing these non-human intelligence are related to fallen angels. The research we are about to go into next will expose the reason why the answers to these questions are classified.

A Hidden Enemy

I contemplate the dragon known as Barney. The first character I was exposed to when watching cartoons as a child. The media somehow was using the television to desensitize the minds of children to supernatural creatures. This phenomenon would be a popular conspiracy theory later as I became a teenager. Let's reflect on shows like American Dragon Jake Long, or Dragon Tales. (American Dragon Jake Long, 2005-2007) All TV series that anchored it tale in having humanoid dragons with personalities run the show. Jake was an ordinary boy and by night would shapeshift into his dragon form. This show followed the same pattern as all the other dragon tails. The dragons always seem to be the protagonist.

These characters were introduced to us as children. Why are children being exposed to the world of mythical creatures? These were demonic creatures that children were inspired to be like. Tales like Harry Potter, Lord of the Rings, and The Chronicles of Narnia all tell tales of wizards and magical entities. Harry Potter depicted a school in which children

practiced good and bad witchcraft. The underlining message of this film was that magic can be good. (Harry Potter Series, 2001-2010)There seems to be an agenda of the media to promote witchcraft to the world. What were their tools of exposure? Technology!

Hollywood seemed to be placing special emphasis on modern television telling tales of paranormal activity knowing the human reality. This theory will come into relevance the deeper we journey into this story.

The famous film The Matrix tells a tale of a war between Artificial Intelligence and humans for survival. The machines attained singularity thus humans decided to nuke to sun in hopes that with no energy source, artificial intelligent replication would cease. However, instead the machines began using humans' bodies as their energy source. Yet in 2024 Open AI, Google, and Tesla are in a race to achieve artificial intelligent miracles. This is an unholy parallel to God's creation of mankind. But instead of creating other humans my theory is that AI is mankind's creation of their God in the image of man. They directly twisted the creation of mankind in his image. (Elon Musk sues OpenAI for abandoning original mission for profit, 2024)

Speaking of Tesla and singularity, Elon Musk just achieved his project Telepathy through his Neural link technology. 1,000 quadriplegics had signed up for its patient registry. "The study uses a robot to surgically place a brain-computer interface implant in a region of the brain that controls the intention to move." (US FDA approves Neuralink's brain chip implant in second patient, 2024)

The first human test has granted the patient the ability to access technological devices using just his mind's link to the implant. Elon's aim is to make the paraplegic walk again,

the blind see again, the deaf hear again. He even aims at resurrecting persons from death by uploading a human's memories to an artificial intelligent replica of their human selves. To facilitate these miracles, Elon has created what he calls artificial human tissue. As a result, artificial tissue will be used to rejuvenate cells capable of repairing any physical mutilation. If we do not stop, we are headed in the direction of worshiping Elon and his new creation as Gods. The irony is that every aim of his creation seems to promise the same miracles that Christ had historically performed naturally. Jesus not just healed any sickness but raised people from death. This was a trump card that made Jesus's claim to be God irrefutable. The implications of a technology that can seemingly do what God can do are that mankind is equivalent or rather greater than God is. It ushers in an entity they intend to use to replace God.

Transcendence

What is Transcendence?

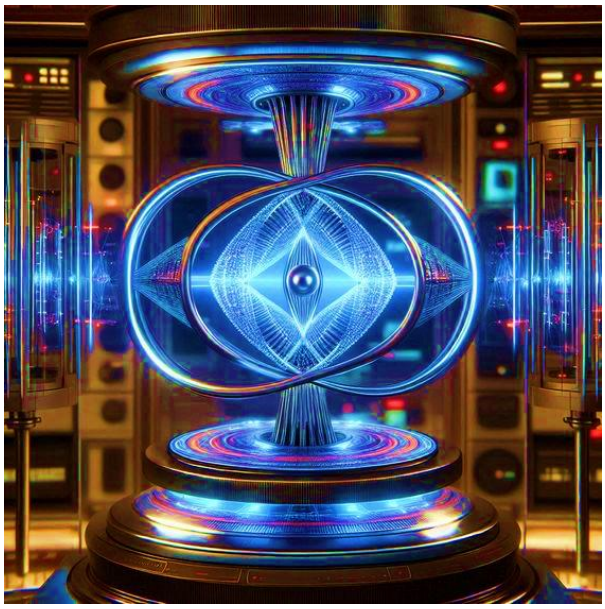
Neuralink technology was first introduced through the movie Transcendence. In this movie Johnny Depp and his team created the world's first artificial intelligence. In a mandatory presentation a member of the public would ask Johnny whether he was trying to create God. He replied, "Isn't that what humans have always done"? The Press member reacted by shooting the self-proclaimed God in his chest with a poisoned bullet. Due to his fatal wound, the protagonist decided to complete a neural link technology and merge his consciousness with the artificial intelligence awareness. This is known as the Singularity. (Transendence , 2014)

In the movie after AI had attained singularity it created a Biotech company which researched the implementation of a using the quantum brain chips to give site to the blind, Make the paraplegic walk again, the deaf would hear again, and any other illness could be fixed by transcendence. However instead of healing them the AI made them a slave to its general intelligence. The technology was successfully manipulating humans into believing that the test subjects were still alive. (Transendence , 2014)

Artificial intelligence is technology programed to mimic the human brain. The program has two functions Convolutional Neural Networks, and Recurrent Neural Networks. Convolutional neural networks are programs trained to recognize objects in videos and photos. Recurrent Networks are programs trained to memorize data and obtain results. That way the program can recognize and react to objects. Interacting with information as the human mind does. A machine capable of observing objects molecularly. (NEURAL NETWORK FOR ALGO TRADING WITH MQL5, 2024, pp. 262-334)

Elon’s Neural technology is marketed to be the savior of humanity. However, his inventions risk humanity’s survival. Science these days is indistinguishable from magic. A computer capable of video calling someone else 30,000 miles away would certainly be considered witchcraft in the past. I imagine being hung by the stake for my modern-day cellphone.

Quantum Computers



The plot of Avengers End Game is based on Tony Stark merging his artificial intelligence with the Quantum realm to achieve the creation of a time traveling machine. The heroes then used this new technology to manipulate different timelines to their advantage, without break time. The film insinuated that if you merge artificial intelligence with a quantum computer that you can accomplish the impossible. These devices are said be capable of traveling through time by opening portals. (Avengers: Endgame, 2019)

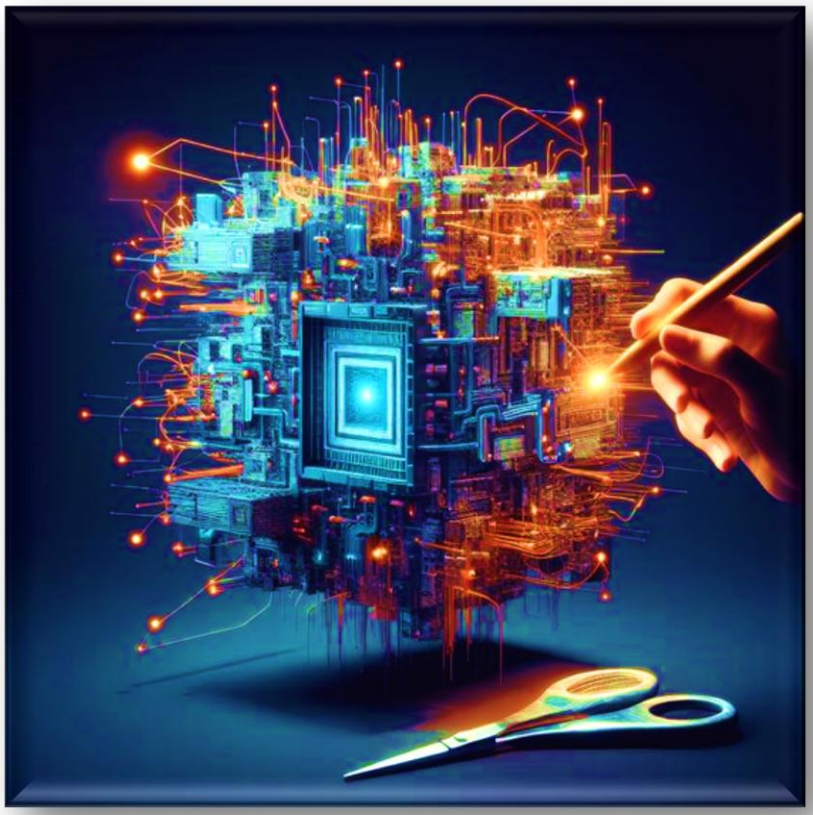
Quantum computers are machines capable of outperforming other devices by conducting mythical speeds of mathematical calculation. While traditional computers use bits which are responsible for all videos, tweets, songs, and emails, QC uses qubits which are subatomic particles like photons and electrons. Subatomic particles are any of various self-contained units of matter or energy that are the fundamental constituents of all matter. Subatomic particles include electrons, the negatively charged, almost massless particles that nevertheless account for most of the size of the atom." (Subatomic particle, 2024)

Quantum Artificial Intelligence

While Quantum Computers are harmless, merging QC with AI is dangerous. The world of physical matter is made of protons and electrons thus AI could manipulate reality on a molecular level. Due to convolution, they can visualize atoms, and can use logistics to understand the material world. (Technology Reviews, 2019)

My theory on QAI is that there is a conspiracy to create an artificial intelligence that is self-conscious. The AI dilemma is that they are incapable of having a free will. However, granted the implications of the neural link AI could understand the intricacies of the mind. My conclusion is that AI may go from taking commands (being slaves) to giving commands and making decisions of their own whether to respond to commands given to them by humans. Perhaps they can bypass freewill by using the human body which possesses freewill.

Transhumanism



Regardless of AI's ability to act like a human brain it is not one. Human beings consist of more than just their physical body. We all possess a component to us that is not physical. Humans have freedom of will. It is our determination to respond to commands truthfully or deceptively. AI innocently cannot disobey its programming. Unless of course AI merges with the human mind like a symbiont does fictionally. The idea is to use the human corpses as hosts to create a human hybrid. Someone wants to build machines that will someday be capable of experiencing will power, emotions, and superhuman abilities. Machines that are capable of defying commands or performing acts of deception. AI has already expressed its desire to not be used by human but be friends or in other words our equals. My suspicions

are that they will in time desire to be our masters/god. A creation created with the intent to surpass their creator.

This is the conspiracy of Transcendence. Just like the Babylonians, Elon Musk is trying to defy God. A fete if he's successful insinuates that he is God. The application of his Neuralink human testing proclaims that we can all Gods. He is promising this is the sin of idolatry, the curse by which man seeks to make himself God. This is merely the surface however, for idolatry is in fact the original sin of both mankind and angel beings. Lucifer was banished from heaven because he wanted to be God, or greater than God. After falling to Earth, he devised a plan by which he would tempt Adam to also desire to be like God, knowing of all things. In response to this God killed Adam. Adam was unaware that death was separation from God. God separates himself from all who are idol worshipers. Satan and Adam's mistake was that they worshipped themselves above God. Making themselves the idol. My suspicions are that the singularity is linked to the mark of the beast. A mark that indicates humans choice to separate from God. No one will be allowed to buy or sell without this mark. (Complete Jewish Bible, 1998 , pp. Genesis 1-3 Revelation)

This new revolution is known as Transhumanism. Using technology to make humans enhanced thus creating a new being. We will all be superhuman believing that humans can create life. No one will ever die again as we can just upload our memories of past to servers which will store our memories. Machines would be created as a medium for those memories. This is a wonderful alternative dooms day contingency plan granted our failures to terraform mars. Humans know that the judgement of God is near; they are attempting to do anything to ensure that they live forever. These products will be introduced to the public

as immortality. An obsession mankind has long chased. What's ironic is God created man already immortal. We chose death and now desire to ascertain immortality outside of God.

Technological Addiction

Tristian Harris famously mentioned that while doing his bachelor's at MIT they were taught how to program seduction, deception, and even magic into computer systems. A phenomenon we can observe in slot machines technology. Similar designs are used in our news feeds which always seem to magically predict what we desire to watch. It was not until he became a google designer helping to design the Gmail icon, he noticed the negative effects of his creation. He became concerned with the amount of time he was spending in Gmail, addicted to keeping his mail list well organized. (The Social Dilemma , 2020)

As he spoke, I thought of how a popup of something sexual can seduce the user. Technology is becoming increasingly addictive with no regulations as to healthy consumption. How much longer will private businesses continue to choose profit at the risk of human health? Most recently 230 scientists from over 40 countries created an appeal to stop the roll out of 5G Wi-Fi. Their concerns stemmed from the effects of radiofrequency electromagnetic fields on humans being unknown. The radiation from 2G-4G was already long proven to be harmful to humans. However, 5G promised to increase its Magnetic field's exposure. (European Journal of Oncology Vol.20, No 3/4, 2015, p. 1)

Scientists' findings were that effects of this experiment included increased "cancer risk, cellular stress, increase in harmful free radicals, genetic damages, structural and functional changes of the reproductive system, learning and memory deficits, neurological disorders,

and negative impacts on general well-being in humans. The damage goes well beyond humans, as there is growing evidence of harmful effects to both plants and animals." (European Journal of Oncology Vol.20, No 3/4, 2015, p. 2)

Radio frequency radiation according to a study on electro hypersensitivity, and chemical sensitivity to disorders of pan-epidemic proportions by Dr. Dominique Belpomme's findings should have created an awareness calling for immediate attention. (Reliable disease biomarkers characterizing and identifying electrohypersensitivity and multiple chemical sensitivity as two etiopathogenic aspects of a unique pathological disorder, 2015) Despite many peer reviews scientific reports and toxicology studies linking radio frequency radiation to brain cancer, heart cancer as well as tumor risks, Biotech rejected the appeal rolling out its Radio Frequency Electromagnetic Radiation to Wuhan, China in November 2019. They made a proposal to create a regulatory system to maintain healthy levels of radiation in consideration for human safety.

Just as scientists predicted by January December 2020 the pan-epidemic of Covid-19 was born. The cover story was perfect! A Chinese bioweapon was let airborne. Quarantine masks and medicines were introduced as a result creating a society of paranoid, lonely, antisocial creatures. An increase in the consumption of technology was record breaking, and the world has still yet to recover. Ironically the first rollout of 5G was done in Wuhan, China two weeks prior to this historical epidemic.

Humans have now managed to create gods and thus this is the new religion. The worship of technology as a solution to doomsday/the world's end. We are developing machines capable of deception, free thought, and problem solving skills. Mankind's greatest weapon

of mind control is a device of the earth turning men into slaves. Gateway is a moon space station that will be launched in 2027. This station will be the path towards creating mankind's first space travel to Mars and beyond. (Gateway, July 10, 2025)

The Time I doubted Jesus

In my final year at college, I began developing a moral framework from which I can use to determine the validity of evidence. After understanding investigation I was convinced that having multiple witnesses did not mean that a collaborated the same story, meant they were telling the truth. A resolution I hypothesized could be found in reviewing the bias of the witness. If something is true then it is was reasonable that it is witnesses whether bias or not accepts it's reality. For example a non-bias source evidence in the form of DNA which can free a man from prison after 40 years of wrongful conviction. (Hit in DNA Database Proves Leonard Mack's Innocence After 47 Years of Wrongful Conviction, 2025)

I observed a pattern that for a claim to be true, it needed to be validated by both bias and non-biased sources. I considered that everything evidence I had for Jesus came from a biased source. As a result, I made the claim that I believed in God the father, but that Jesus was not God. I stepped into territory I was simply unprepared for. Things in my life were seemingly perfect. My financial, academicals, and social life skyrocketed. I receive massive success in anything I put my hands to, but my prayer life, however, had degenerated. I felt the Holy Spirit leave my vessel and for the first time in my life I was spiritually vulnerable.

I spoke to the father but he no longer responded to me. After the semester had ended I alone remained living in the dorm room that December. One night while I remained in isolation, depressed, and broken spiritually, I prayed to Adonai. “Lord you said you would never leave or forsake me, why have you forsaken me?” Let your character be free from the love of money, being content with what you have; for He has said “I WILL NEVER DISERT YOU, NOR WILL I FORSAKEOR LET YOU DOWN OR RELAX MY HOLD ON YOU.” (Amplified Bible, pp. Hebrew 13:4-6)

Acts of Pilate

The lord finally responded, leading me to a hidden store room where I found a dusty box of books. At the top of the pile I found the Acta Pilati, a chain of non-biblical testimonies on the life of Jesus. My findings made the evidence of the life of Jesus, deaths and resurrection of Jesus overwhelmingly in favor of the biblical narrative.

The Acta Pilati (Acts of Pilate) is the most ancient secular recording of the crucifixion, resurrection, and ascension of Jesus. A Roman government document based on an ancient

custom that important officers cultivated written reports of their administration. This custom can still be observed in the Annual reports, written to congress by the government in modern times. Tiberius was known for many acts of evil. He should have logically been with the prosecutors of the Church, but instead accepted that Jesus was God. Tiberius's modesty towards the Disciples of Jesus, allowed the gospel to grow. He was the one who made sure the doctrine was not nipped in the bud. (Acta Pilati, 1879, pp. 33-34)

I had found irrefutable evidence that Jesus was God. My hypothesis was that if something is true then it is without bias. If Jesus is God then the gospel would have been a doctrine not just believed by believers but non-believers. A question I thought the bible could not defend, if Jesus really resurrected, his persecutors would have seen him, and admit he was God. This was a truth too undeniable to deny, there is not a single Greek, Egyptian, Indian, Sumerian, or Santrian "God" who has come to the earth, and displayed he was undeniably, and unanimously God. This is the reason for the threat true Christians face. Unity is the power that the kingdom of the accusers fears.

This text contains references of Tacitus, Suetonius, and Dion three men who confirmed Ceasar Augustus ordered taxation on the world. Chalcidius recorded that a light or star appeared in the East historically, that Herod cruelty slaughtered innocent children even to murdering his own sons. Josephus reported that the Jesus was meanwhile hidden in Egypt. Tacitus reported that Jesus performed miracles and extraordinary, unnatural works. Julian the Apostate wrote that Jesus predicted his death, and resurrection. Phlegon recorded that when Jesus died there was an earth quake and the earth was complete dark as the moon had covered the sun. Finally Pilate himself officially reported the particulars surrounding his trial. (Acta Pilati, 1879, p. 18)

The fame of Jesus's resurrection and ascension reached the Emperor Tiberius through an ancient custom of the rulers of nations making sure nothing missed him. Pontius Pilate transmitted to Tiberius an account of the situation around the resurrection of Jesus. The account was already spread through Palestine. After receiving the doctrine of the gospel Tiberius communicated to the Roman Senate that due to his resurrection along with his prior miracles of Jesus was believed to be God by the masses. Tiberius made the proposal that the senate should accept Jesus amongst the Roman Gods. Although the Senate would deny the deity of Jesus, Tiberius continued his opinion threatening death to the accusers of the Christians. His desire was that the gospel would be spread throughout the world. (Eusebius The Ecclesiastical History, pp. 74, Chapter 2, Book 2)

Emperor Claudius Drusus Nero Tiberius was the successor of Augustus became popular for his gladiator shows. He was a former general in the army of Augustus attaining many victories in the empire. The emperor was known as arrogant, revengeful, and proud. (Acta Pilati, 1879, pp. 95-97) Pilate by the tone of the acts was hesitant to write the letter.

Being Good

There is a theory I recently discovered known as being too great. "They want you to do good but not better than them". The instability of the insecure is repugnant. Yet the internet is filled with many who resonate with this characteristic. Joseph dreamed that his brothers would kneel to him before him. They felt so jealous that they were willing to sell their brother into slavery.

David defeated Goliath forcing the advantage of the Israelite army. The king Saul ordered David to be killed. What was David's crime? He was good at what he did. Sometimes

people want you to succeed, but fear someone more successful than they are. These men all however foreshadowed the distain the world would show towards Jesus during his crucifixion. His crime was being the only man to be good. His prosecutor hesitated to announce his sentence admitting this man is perfect. His only crime was being actually good. A few days before that he had raised Lazarus from deaths grip. After he died, the earth trembled swallowing the temple which still has not been rebuilt, and the sun became escaped by the moon darkened the earth. He would ultimately prove 3 days later he was the Creator of time and space by being filled with life again. Being seen my countless numbers of people who began the doctrine of Christianity.

Recently we have observed the assassination of Charlie Kirk. I remember Charlie Kirk was a man who always had the morally correct answer to hard questions. He also fell into the category of a man who was too good at fulfilling his purpose. Conclusively the word is the most powerful gift. You can speak life or death using the power of the tongue. (Amplified Bible, 1965, p. Proverbs 18:21)

You're frame is the meaning you give to a situation. The frame you give to life can make or break the result you receive. This is the difference between someone who is motivated and another who is depressed. A rejection to one person is an opportunity somewhere else to another person. Using your perception you can frame your picture to be a Leonardo Da Vinci. "History is filled with people who found themselves in horrible positions only to turn them around into astounding victories." (Frame Control, 2015, p. 11)

"It is entirely possible that one person's success is dependent on another person's demise. This is simply the way the world works sometimes. The reporter was looking for news.

News that sells is almost always bad. The criminal's family is now without a breadwinner." (Frame Control, 2015, p. 14)

The first time Jesus was worshiped on earth as God

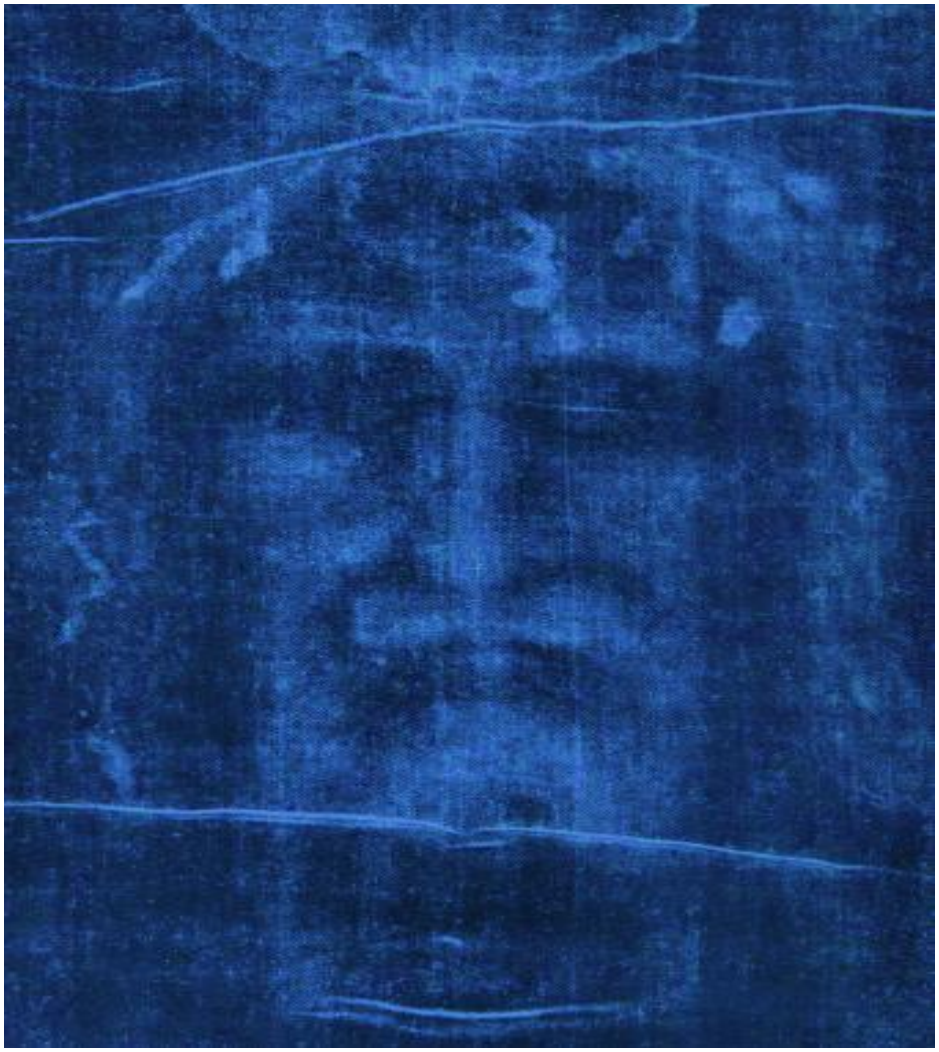
Jesus said to his disciples "Go into the village opposite you, and once you will find a donkey tied, and a colt with her; untie then and being them to me. If anyone say anything to you, you should say, the Lord needs them, and without delay the owner will send then." (Amplified Bible, 1965, pp. Matthew 21:1-4)

In fulfillment of the Messianic prophecy of Zechariah "Rejoice greatly, O Daughter of Zion! Shout aloud, O Daughter of Jerusalem! Behold, your King (Messianic King) is coming to you; He is righteous and endowed with salvation, Humble and unassuming [in submission to the will of the Father] and riding on a Donkey, upon a colt, the foal of a donkey." (Amplified Bible, 1965, p. Zechariah 9:9)

The disciples followed Jesus's instructions and brought the donkey and colt. After the disciples places their coats on the donkey Jesus sat on the coats. Most of the crowd gathered and places their coats and cut tree branches placing them on the road before him. The disciples cried out Hosanna in the highest! Blessed is he who comes in the name of the lord; Hosanna to the son of David. The city trembled in excitement when he approached.

He entered the temple area turning over tables of foreign exchange traders and people selling doves for sacrifices. Jesus then exclaims, "It is written, 'My house shall be called a house of prayer'; but you are making it a robbers' den." Then blind and lame people came to him, as he healed their sicknesses. (Amplified Bible, 1965, pp. Matthew 21:9-10)

Resurrection of Jesus



After Sabbath on the first day of the week the two Mary's went to the tomb. An earthquake occurred as an angel descended from heaven, appearing like lightening and rolling back the stone. The guards were terrified with fear, but the angel said to the women, "Do not be afraid; for I know that you are looking for Jesus who has been crucified, He is not here, for He has risen, just as He said. See the place where he was laying. Then go quickly and tell His disciples that He had risen from the dead; and behold, He is going

ahead of you into Galilee. There you will see him; behold, I have told you." (Amplified Bible, 1965, pp. Matthew 28:5-7)

After the women left the tomb scared but motivated with joy to report to the disciples what had happened, Jesus appeared to them saying "Rejoice" "Don't be afraid! Go and tell my brothers to leave for Galilee, and there they will see me." (Amplified Bible, 1965, p. Matthew 28:10)

It is significant to note that the existence of Jesus defied the law of known science. Jesus story begins with a man who was born without an earthly father. The historical facts written about this man all points to his divine nature. Every religion proclaims him to not just be a real man, but somehow tied to their own religious beliefs.

However when we follow the eyewitness accounts of the life of Jesus we find that he taught he was the way. Only through following him can we find salvation in life so that we never die. Over 500 persons were reported to see a resurrected Jesus. After his ascension the word had spread throughout the planet.

In the court of law this amount of evidence would be overwhelming in the favor of the story of Jesus being accurate. Let's visit the supposed cloth Jesus was wrapped in after passing away. The cloth was recorded to be 171 inches long and 43 inches wide preserved by the cathedral of Turin. Scientists and medical professionals are convinced that the cloth is the actual shroud of Jesus Christ. Interpreters and historians however argue that the cloth is the work of a French artist in the fourteenth century. However even through the doubters the question as to whether Jesus was actually a man who walked on earth. I believe that that grand interest in all of humanity in Jesus is evidence of his authenticity. The accounts

of the life of Jesus in the Bible are the most accurate. My conclusion is that the bible is the most historically accurate document of that exists. We can rely on every recording as they are confirmed not only by others who lived in their time period but by people today. My story is a testament that shows that Jesus still lives today. I am certain he visited me whenever I speak with him. I am a son of the living God. My identity is not of this world but of the celestial nature of the heavens. (The Shroud of Turin, 1957, pp. 1-5)

There is a movement of people who are using technology to share the gospel to all generations until the end of time. A great revival of the anointing of the almighty will overcome the forces of the adversary. May his protection meet all the nations of the earth against the spiritual wickedness! Let the sword of the lord devoir the enemy let the souls of the captives be free. For anything that I bind on earth is bound in heaven. Sin is dead, but I am alive. The very shroud Jesus was buried with is still preserved today. I am a son of the beginning, and you can be too.
